MOTIONS AND RESOLUTIONS

Mr. Mason moved

That the Minutes of Council, of Monday, November 24, 1969, be approved.

Which motion prevailed.

Mr. Baskin:

Mr. President, I wanted to report to Council, a meeting held over the weekend with some of the Legislators from Allegheny County and some of the Senators, Mayor-elect Flaherty was there, as well as myself and the Mayor. We are trying to find out what we can do to expedite passage of several bills to help the City. The first is the one we reported on before—the increased Occupancy Tax—from \$10 to \$20. The other is a bill which would remove from the tax-exempt rolls the land of such institutions as hospitals universities, churches, synagogues, etc. To the best of our knowledge at the present time, we are hopeful that the bill on Occupation Tax will be reported out of Committee and headed for the first reading. We are also hopeful that the bill which would cut down the tax exemption on land for a number of institutions will be reported out of committee.

In connection with the bill on removal of land from the exempt status, I might say that the only group which has made known its opposition thus far, so far as any of your Representatives are concerned or that we have heard about, has been the hospital administrators and not necessarily the hospital trustees. Apparently the hospitals, despite their protest last year that they would like to make some payments to the City but simply did not like the Institution Tax, do not want to make any payment of any kind and representatives of the hospital administrators have already indicated they would prefer that the bill taxing their land not be passed, even though it relieve many of our poor and retired taxpayers in the City from the heavy burden they are now assuming. I think this points out very clearly the position to us that not only are they interested in increasing their fees in their close arrangement with Blue Shield and Blue Cross to cover whatever expenses they find feasible to themselves, but have made it clear they are not willing to assume any of the burdens that any business respon-

sible to this City should feel obligated to take on. I think it should be made perfectly clear to the public just where the hospitals stand in this situation and I thought it would be of interest to City Council to get this report.

Mr. Mason:

Mr. President, this report that my colleague, Mr. Baskin, has just given is most disturbing to me and I think, I am sure, it is most disturbing to the taxpayers.

I cannot comment on the meeting over the weekend but it seems to me this honorable body of City Council has extended itself quite extensively to give the hospitals and university centers the kinds of things they have come before City Council to request in order to make the Oakland Center a cultural center. And now, after having listened to hospital administrators last year and the university people at last year's budget meeting, to hear a "reversal" in their position is most disturbing to me because we are now preparing to have our budget hearings and I think every responsible citizen in this community knows this City is in serious shape, budget-wise, and I do not know how we are going to "ball ourselves out" without the possible legality of the Institutional Tax and exempt properties coming under that purview of the law. I am just disturbed about it and I want to go on the record for that.

The Chair:

May I introduce Mayor Joseph M. Barr to present his Budget Message.

Mayor Barr:

President and Members
City Council
City of Pittsburgh

Gentlemen:

Ten years ago, almost to the day, I presented my first budget for General Fund operations of Pittsburgh's City Government. It amounted to \$49,112,000.

Today I am obligated to perform the same responsibility for the last time, and the General Fund Budget I am recommending to this Council calls for the expenditure of \$92,003,112.

Those two figures capsule, better than any other way, the financial pressures and demands which plague not only Pittsburgh but cities throughout the country.

Before getting down to the details of projected revenues and anticipated expenditures for 1970, it might be helpful and informative to cite several comparisons between the budget of 1959, when I became the City's Chief Executive, and that contemplated in the recommendations being set forth today.

In 1959, Pittsburgh had an authorized uniformed police force of 1280; the 1970 budget is calculated on a complement, exclusive of school guards, of 1800. The top patrolman's salary ten years ago was \$5450; in 1970, under terms of mandatory arbitration, it will be \$9400.

The same salary comparison applies for the City's firemen.

The cost of operating the Public Safety Department has more than doubled in the decade, rising from a little over \$17 million when I took office to almost \$35 million as I leave.

Similarly, it will cost \$6.3 million more to operate the Department of Public Works, \$2.7 million more for Parks and Recreation, a third again as much for libraries, and four times more for purchasing automotive equipment. Debt service will require a 1970 appropriation approximately \$5 million larger than was needed for the same purpose in 1959.

Employees' benefits, such as Workmen's Compensation, pensions, insurance and hospitalization, call for \$5,655,000 in next year's budget. In 1959, the City's obligation for the same purpose was \$1,625,000. While some increases over the past ten years represent inflationary costs, others represent expansion of services.

These figures form the pattern and not the exception.

And I would be less than frank if I were to suggest there is a forthcoming reversal of the trend.

What is required, then, is an effort to conscientiously balance the City's needs with its capacity to fairly and adequately pay its bills.

This 1970 budget represents just such an effort.

It calls for expenditures \$5.4 million above that provided for in 1969.

Of this amount \$1,936,000 is needed to pay salary increases for policemen and firemen.

Another \$1,425,000 is required to provide non-uniform City employees with a modest five per cent salary increase not to exceed \$500 a year.

These employees are no less dedicated and worthy of a minimal wage adjustment than our uniformed services and they and their families are hit just as hard by inflation.

To service the City debt means an additional \$1,417,000. These three items alone account for nearly \$5 million.

All of which suggests that non-mandated expenditures have been subjected to stringent scrutiny and control—and indeed they have.

Departmental requests, submitted to the Mayor's Office, were \$8 million greater than comparable 1969 appropriations, once non-mandated items were separated from them.

The budget I am today submitting has reduced those requests to \$250,000, which, on reflection, qualifies as more drastic than simply stringent.

Those requests given priority consideration and approved include:

----\$100,000 to the Bureau of Police to hire clerical help to relieve able-bodied police officers for street patrol.

----\$135,000 to purchase police equipment including Handie-Talkies.

----\$340,000 to insure adequate maintenance and supervision at various new parks and recreation installations including Brookline Park, Manchester and Baxter Playgrounds, Allegheny Square and East Liberty Malls.

----In the Mayor's Office a top level position of Housing Coordinator included at the request of the Mayor-elect.

Off-setting these increases is the fact that many departmental allocations for next year—excluding mandated—will be below the 1969 level.

It may well be that Council will want to increase the departmental appropriations to provide an even higher level of services than this budget calls for. In that case, I know that Council will also provide the additional revenue required.

Frankly it was difficult to refuse many reasonable departmental requests, but it does reflect a determination to achieve a balance between what we might want to do and what we can reasonably afford to do.

The need for exercise of such judgment becomes clearer when it is pointed out that increased obligations represent only half of the City's financial dilemma.

While 1970 expenditures are set at \$5.4 million more than those appropriated in 1969, available 1970 funds to meet those outlays will be \$4.5 million less than in 1969, due in large measure to the non-recurrence of a year end surplus and payment from the Pittsburgh Parking Authority.

These are unpleasant facts to set forth; they represent a gap between income and outgo of \$9.9 million.

One source of satisfaction in presenting the 1970 budget is the elimination of a deficit of \$3 million in 1969 which seemed possible in September of this year. Because some revenues were slightly higher than expected, because of stringent economies by department heads, and because some budgeted expenditures were not needed in 1969, we are not anticipating a deficit to carry over. Some time ago we had reduced the projected \$3 million deficit to \$1.8 million. It now appears that actual tax refunds this year will be approximately \$1.2 million less than budgeted, bringing the deficit projection down to \$600,000, which we reasonably believe will be eliminated when the fiscal figures are in for 1969.

Deficits should be avoided if at all possible to maintain the City's A-1 credit rating—one of the highest of any major municipalities in the nation.

Balancing for 1969 was difficult. We

did not sell \$2 million in bonds which were authorized nor did we borrow \$900,000 from the Redevelopment Authority. Also, because of the hospital suit against an Institution Tax, our collections are approximately \$1.8 million less than budgeted. Nor were we able to implement an expanded parking meter program which could have brought us \$700,000. This meant a total revenue loss of \$5.4 million which we had to overcome.

Not only is that an achievement in which we can take justifiable satisfaction; it also relieves the Council of the onerous burden of having to provide 1970 income yields \$3 million greater than the \$10 million already needed.

To recapitulate, then, the budget now before you calls for 1970 appropriations totalling \$92,003,112. It projects revenue from existing sources at \$82,162,900, leaving a shortage of \$9,840,212 which must be raised.

To make up that deficiency I recommend that the Council take the following steps:

- Increase water rents by 20 per cent for an income gain of \$1.8 million; our rates will then compare generally with private water companies.
- Raise the Parking Tax from 15 to 20 percent, to produce an added \$650,000.
- Place an additional levy on real estate of 2½ mills on buildings and five mills on land, to provide \$4,125,000; and
- Establish the Occupation Privilege Tax of \$20, retaining the present exemptions, which will furnish \$3.3 million in new revenue.

The total gain from such enactments would be \$9,875,000, an amount sufficient to bring the 1970 budget into balance.

In summary, then, the City's budget for 1970 will be:

1969 Cash Surplus	-----	None
1970 Revenues	-----	\$92,037,900
1970 Departmental expenditures (including wage adjustments)	-----	\$92,003,112

NET SURPLUS -----\$ 34,788

The 1970 Water Fund budget will be \$7,983,512. The final 1970 appropriation, including water services, therefore, will be \$99,986,624, an increase of \$5,182,460 above the 1969 figure.

I should quickly point out that the recommended increase in the Occupation Privilege Tax is predicated on Legislative response to appeals for such authorization not only by Pittsburgh but from municipalities across the Commonwealth.

The necessity for such action by the State is so overwhelmingly urgent and convincing that to contemplate anything less is unthinkable.

These are difficult recommendations for me to make and they impose on this Council the unpleasant task of implementation.

Let me discuss briefly some alternative courses which were explored and discarded.

First, there is the prospect, as set forth in the 1968 Amendment to the Constitution of Pennsylvania, of income from taxation of public utility properties.

If the Legislature should fail to impose such a levy by Just 1st, the utilities would be subject to local real estate taxation, which, in Pittsburgh's case, would produce \$1.5 million for 1970 purposes.

However, it is likely the Legislature will intervene with its own levy, which then would be distributed to municipalities according to a formula and on a schedule that is not presently predictable although we believe we should realize at least what we would receive in real estate taxes.

To budget on legislation not now in form would be risky business indeed, and might well lead to another crisis by the end of 1970. I prefer not to burden my successor or the City Council with such a prospect.

However, it is clear the City should employ its full energies to make certain it receives fair treatment and a fair share of taxes on public utilities. And if such funds are forthcoming in 1970, I believe

the Council should go on record now that it will make appropriate reductions in other 1971 City taxes to reflect this gain.

Secondly, there was available the possibility of resorting to short-term bonding to provide for Court-ordered real estate tax exonerations, a device authorized in 1969 but not utilized.

Even in normal times, such an approach should be avoided if possible. Given today's money rates it becomes too expensive to be considered a desirable course of action.

In short, this budget, and the recommendations it embodies, seeks to avoid the wishful and the unwise, serving, instead, to reflect a realistic and responsible approach.

That is the course—and it has been a difficult one—I determined on when I became Mayor. I do not intend to saddle the next administration with the greater problems that surely would result from too stringent an income approach at the end of my tenure as Mayor.

In 1969, because both the County and School District raised real estate taxes, we did not in order to relieve the already heavily burdened City taxpayer. Instead we turned to other more difficult tax programs designed to spread the cost of City services on resident and non-resident users alike. We also balanced the budget with the \$2,000,000 bond authorization and \$900,000 loan authorization I referred to above, with the hope that we could avoid their use. As I pointed out, this hope was realized.

I could have avoided a recommendation for a real estate tax increase for 1970 by relying on some of these methods. I could have assumed \$1,500,000 income from the utilities; I could have retained the \$2,000,000 bond authorization for a total of \$3,500,000 leaving only \$700,000 which could have been obtained by cutting expenditures even more than we did and being slightly more optimistic on revenues. If all or some of these revenues did not materialize, the deficiencies could be offset by savings during the year.

The Mayor-elect requested that we not use this approach. I agreed because I do

not believe the new Mayor should be forced, in his first year, to operate as penuriously as we did last year.

There will be problems enough, as we are all aware, without manufacturing new ones.

Finally, I would hope that the General Assembly would realize that Pittsburgh and other cities in Pennsylvania must be allowed Home Rule taxing powers to better utilize their own resources.

On the other hand, there are some prospects ahead that give a glimmering of light at the end of the fiscal tunnel.

Specifically, the budget I present is, I believe, in balance, assuming Council enacts the recommended revenue increases and holds generally to the requested expenditures.

Experience tells us that the normal course of events and careful fiscal management should translate such a budget into a year-end surplus with which to enter 1971 and give to the new Mayor greater flexibility for 1971.

Certainly, the Allegheny County Common Pleas Court decision yesterday upholding the City's Business Privilege Tax brightens this prospect considerably. It provides the Mayor-elect with additional assurance that revenues estimated in this budget from the Business Privilege Tax will be fully realized.

In addition, if the City is equally successful in the lawsuit involving the Institution and Service Privilege Tax, additional revenue will be forthcoming.

Then there is the forthcoming revenue from taxing public utilities which certainly will be available to help finance 1971 operations.

Additionally, the legislation is pending on a Land Tax on presently exempt, non-governmental properties. If it is enacted, as it should be, it can yield upwards of \$2 million.

Still another potential but more modest source of new income would result from the possible granting of a City franchise for cable television, which also would make possible improvements of worth and savings in the City's own communications functions.

Assuming that all of these things occur, Pittsburgh's financial condition at the end of that first year of the '70's should be somewhat less pressing than it has been in the last two years of the current decade.

Yet if past experience is to be the guide, even the gains I have mentioned will fall short of meeting a reasonably predictable expansion of needs.

And clearly the solution, the only real solution for cities everywhere in this country, will come when we come honestly to grips with inter-governmental relations in this nation.

It should be obvious even to the most myopic that cities cannot remain solvent or their problems solvable until there is a significant infusion of Federal and State funds—urban problems and national problems are intertwined. And to get to the core of the problem, one must look to the National government. While the States generally and traditionally have failed to treat urban areas equitably, the fact of the matter is that they too suffer serious fiscal constraints.

This is not to suggest that they cannot and should not do more than they have; there is no question that pressure must be maintained and increased to achieve a fuller sense of fairness and responsibility by the States in relation to the Cities.

Yet for that to be accomplished in any significant degree means additional Federal assistance to the States as well as direct financial aid for urban areas themselves.

If as one example, the Federal government would assume full responsibility for public assistance in the nation, as it should, Pennsylvania State government would then be in a position to accept a larger role, let us say, in supporting education, perhaps even financing instructional costs completely.

Were that to occur, local effort now going to education could be diverted to help pay for other municipal services.

Clearly the money is in Washington.

The reordering of priorities by Washington and a national commitment to

the health and security of the urban areas is the most pressing American imperative as we move into the Seventies.

To bring that about is a responsibility we all share, those in government, together with the public at large, which I will join next month after 30 years of public service.

And I pledge you now that transition of roles will not diminish in any degree my determination to use every resource of reason and persuasion to help develop such a commitment and give it the substance of reality.

None of this, of course, means that a City can or should slacken its own efforts to build the conditions and create the atmosphere to make it the most attractive, stimulating, productive, and livable home for man.

We can claim with honest pride that Pittsburgh has helped show the way how such a work can be done and how rewarding its accomplishment can be.

That work, we all know, far pre-dated my election as Pittsburgh's Mayor and no one is more conscious of that than am I, or more grateful for the pattern of action and accomplishment of programs which will always be associated with David L. Lawrence, who set the pattern for an alliance among governmental, business, labor and civic groups.

But I would be less than human if I did not feel a sense of satisfaction in having helped employ that pattern and enlarged that accomplishment in these past ten years.

That decade, for instance, brought the creation of more downtown office space than was generated in the 40 years that preceded it. And that office space, in turn, has made it possible for 103,000 persons to have their jobs in the Golden Triangle—one out of every four jobs in the entire County.

Those downtown buildings also permitted Pittsburgh to be headquarters for more national businesses than all but two other cities in the country.

The spin-off of that achievement has

been 21,000 new research jobs in the metropolitan area provided by corporations headquartered here.

But it has not been just a decade of skyscrapers.

Almost 12,000 new dwelling units were constructed in the same period, almost a fourth of which accommodate low and moderate income families.

We were the first City to provide a residential Land Bank Fund, the first to enact a fully comprehensive Fair Housing Law, and the first in the State to permit Rent Withholding protection for tenants of slumlords.

In these past ten years, Pittsburgh developed the nation's most successful manpower training program, upgrading the skills and enhancing the employability of almost 8000 human beings, while at the same time mounting one of the most effective and productive anti-poverty efforts of any American community.

A third of the City's streets have been lighted with mercury lamps and 100 miles of them have been repaved. Forty new recreational facilities have been developed, five libraries built, an antiquated water plant converted into the most modern, an undermanned and underequipped police force brought to strength and given the tools to do its job.

But I did not intend to recite a litany of accomplishment at this time and to this body.

You know what has been done, because it has been your work too, just as it has been the work of thousands of people in government, in business, in education, in labor, in every segment of this Pittsburgh community.

What is important is not so much the achievements, but the realization of the capacity of a citizenry for its own improvement, for city building, for life bettering, for meeting its obligations with spirit as well as courage.

We have made physical progress; we have made economic progress; we have taken important steps in human pro-

gress, equal opportunities and providing a place for the individual in our changing society.

For all of this progress, Pittsburgh is a better City, and its citizens are better people.

It is this conviction that makes difficult responsibilities bearable and hard decisions acceptable.

It is this knowledge that makes this City great, and this man proud and

grateful to have had the chance to serve it and the honor to remain a part of it.

Yours very truly,

JOSEPH M. BARR

Page 16. Insert in the second line of SECTION 3 between the words "anticipated" and "rentals" the following:

Mr. Kamyk:

I second the motion.

Mr. Flaherty:

Mr. President, I recognize that the rules permitted an amendment to be introduced at any time and ordinarily

these amendments are presented at the Committee hearings on Wednesday. If the bill was not one that had problems in it or no dispute, I ordinarily would not object to it being presented for final action today.

However, I think this amendment is one that deserves the full attention of Council in Committee hearings on Wednesday. While I have no objection to the additional three million which is necessary because of inflation, there is a portion of this amendment which I do feel should be explored further by Council. That is the so-called Stadium service charges of fifteen cents for the five-year period that is mentioned in the amendment.

In my discussion with Mayor Barr, he indicated to me that it would take at least twenty-five cents of a service charge to balance off the difference between debt service and rental, and I still have reason to believe that the Mayor's figures are correct, and that if we adopt the fifteen-cent service charge we will not receive a sufficient amount from the leases and service charge to meet the debt service. Before we go ahead I think we ought to explore this matter at Committee meetings first and, also, in sub-committee that has been engaged in Stadium work previous, and be rematched to meet with the tenants to see if the twenty-five-cent service charge to be imposed by the Stadium Authority could not be met by the ball clubs and at least get a yes or no.

I ask that this bill be recommitted to the Committee hearings on Wednesday.

Mr. Kuhn:

I'm going to second Mr. Flaherty's motion to recommit, but for a different reason do I have to agree.

The Chair:

Second the motion? There is a motion on the floor now to adopt the amendment.

Mr. Kuhn:

I'd like to state my reason. I have been trying to follow the amend-

ment, which Mr. Fagan presented and which was seconded by several of my colleagues, against the original ordinance and against the previous amendments to it. I find that I cannot follow it from the material that was given to us as a part of it, apparently from which the clerk was reading.

Quite obviously this does require more attention than we can give it in order to know that text we are asked to approve today. For that reason I'm glad to second Mr. Flaherty's reason to recommit.

The Chair:

Anybody else care to be heard? All in favor of the motion to amend accept by saying "aye". Ayes 7, Noes 2. Mr. Flaherty and Mr. Kuhn voting no.

Which motion prevailed.

Mr. Kuhn:

Mr. President, with respect to Bill No. 4187, on which I seconded Mr. Flaherty's motion, it was my understanding, if I understood the ruling of the Chair, that the motion to recommit was not recognized, at this time, that it was made. Is that correct? Although I believe as a matter of parliamentary procedures to recommit does take a majority vote, I nevertheless renew the motion to recommit Bill 4187 for reasons which I stated earlier.

Mr. Flaherty:

I second the motion.

The Chair:

All those in favor of the motion to recommit accept by saying aye.

Mr. Kuhn:

May I ask that you poll the Council?

The Chair:

I certainly will.

No. 4294.

December 15, 1969

President and Members
City Council
City of Pittsburgh

Gentlemen:

It gives me great pleasure to re-appoint Richard B. Tucker, Jr., 5458 Aylesboro Avenue, a member of the Allegheny County Sanitary Authority,

for a term of five years, expiring December 31, 1975. This appointment is subject to the approval of your Honorable body.

Very truly yours,

JOSEPH M. BARR
Mayor

Which was read, received and filed.

Also,

No. 4295. RESOLVED, That Richard B. Tucker, Jr, 5458 Aylesboro Avenue, Pittsburgh, Pennsylvania, 15217, be and he is hereby reappointed by the City of Pittsburgh as a member of the Board of Allegheny County Sanitary Authority for a term of five (5) years from January 1, 1970.

Which was read.

Mr. Flaherty:

Mr. President, I move the Resolution be held over as a matter that more properly belongs before the next administration.

Mr. Fagan:

I second the motion.

Mr. Baskin:

Mr. President, I want to speak on the motion. I think the Mayor is Mayor until the end of the year and has the right to make any appointment, under the law. Mr. Flaherty has said, on budget matters and other matters, the Mayor is still the Mayor of the City and has responsibility for being Mayor until the end of his term. One of those responsibilities includes the appointment of people to these vacancies. There are two such nominations before us today; one for Mr. Tucker, who has served honorably, without compensation, in this position for many years and is well respected in the community. The same with the other nomination coming up, and I will speak to that when the Clerk reads it after this motion is disposed of. But I think it would be a gratuitous insult to the man named which he doesn't deserve, certainly, and also one

to the Mayor which I hardly think he deserves. Therefore, I am going to vote in opposition to this motion.

Mr. Counahan:

I do not see any way I could put this motion before the organization, to vote it up or down, or vote for approval or vote against it. I do not think I can or you can lay it over. It is a request from the Mayor for an appointment and insofar as he is concerned, you either approve or you turn it down. It is that simple and the Chair is ruling it out of order.

Mr. Kuhn:

Mr. President, I would like to speak to the Mayor's request before us. I understand what Mr. Flaherty has said, and Mr. Fagan seconded, and I understand it to have been ruled out of order by the Chair, but I nevertheless believe, without in any way indicating a lack of confidence in Mr. Tucker's appointment, and the companion bill reappointing him, Casey to the Stadium Authority, which I understand is to be made, both of whom have served honorably and conscientiously and generously with the City. I believe this is a matter, nevertheless, where a consultation with the Mayor-elect might very well have been undertaken since the appointments are ones which take effect and will continue during his term of office. For that reason, if this matter were properly before us on the motion made by Mr. Flaherty and seconded by Mr. Fagan, I would vote for that motion. As it is, I understand the Chair's ruling which is that the appointments are before us.

Mr. Fagan:

Mr. Chairman, I accept the Chair's ruling that the motion I seconded is out of order but I feel I would be remiss if I failed to comment on my reasons for seconding the motion because I don't do things unless I have a definite reason to do it. It was not out of disrespect to our present Mayor, whom I have served with and have the greatest respect for, and also his appointees, but I think we must be practical people here in Council and realize the people in Pittsburgh, the Electorate, have

spoken and to the degree they have elected a mayor for the coming four years and during this course of time, I feel he deserves the right and dignity to make his selections of the people who guide the destiny of the City of Pittsburgh. That is the reason I seconded the motion and I still think it is a legitimate and well-founded motion.

Mr. Flaherty:

Mr. President, both Mr. Fagan and Mr. Kuhn, I agree with and I am not referring to the qualifications of either of these gentlemen. If you intend to put this matter before Council today, I would abstain from voting on it so their qualifications not be in jeopardy. I would like to point out, both of these appointments will take place during the entire four years of the next administration. They are both major authorities; both men will be policy-makers, and the mere fact they would serve without compensation does not take away from the fact they would be policy makers. Therefore, I respectfully request you reconsider your ruling on it. If you go ahead and we have to vote, I would like to be recorded as not voting, not on basis of qualifications, but on procedure. It is a matter that has come up with other jurisdictions, with outgoing administrations and incoming administrations. I recall at one point, during the Johnson-Nixon changeover, the same thing arose and I find very few outgoing administrations making appointments that will affect the incoming administration. I feel this matter ought to be left in the hands of the next administration.

Mr. Kamyk:

Mr. President, since Mayor Barr is still Mayor and shall be Mayor until the Inauguration of the new mayor, I believe the first Monday of January, which is the 5th of January, and since these terms have expired, and if we have nothing against the people proposed for the reappointment, I think all this fuss and arguments is to no avail. I think we ought to vote on whether we accept these nominations or not since their terms do not expire December 31st

and I think the Mayor presently has the right to make the appointment and we have the right to approve or disapprove.

Mr. Counahan

As far as the Chair is concerned, the ruling is based on the right of the Mayor and he has presented an appointment here and you either vote it up or down. I do not believe I can reverse my decision based on what I have heard here.

Mr. Kuhn:

Mr. President, I just want to say, I have the same feeling Mr. Fagan does with respect to Mayor Barr's conscientiousness. This is a matter of policy. I definitely do not concur with my respected colleague, Mr. Kamyk, characterizing these discussions on these matters as "fuss and argument." If I recall history correctly, objections raised by Thomas Jefferson to the appointment by the outgoing President Adams were not regarded as "fussy."

Mrs. D'Ascenzo:

Are these appointments expiring today? What are the expiration dates?

Mr. Flaherty:

Perhaps the Clerk can read the letter.

(Which was done)

Mr. Michaels:

I believe the question regards the responsibility we place with the outgoing mayor. I think we have seen, during the past several weeks, he has had to participate in the formation of the new budget over which he has no control after he is out of office. I say, whatever comes before him, and apparently this appointment does come before him before his expiration date, the decision as to whether he wishes to move upon it is one that remains entirely in his realm of responsibility and not one with which we might take issue today. There-

fore, I agree with the Chair. He has made the recommendation, placed it before us, and it is for us to vote on it.

Mr. Kuhn:

Mr. Chairman, one more matter raised by virtue of the appointment. It appears the appointment is for a term expiring December 31st. If I understand correctly, there is a distinct possibility the appointments being made are for vacancies which do not presently exist (if that is so,) there may be a question of whether or not the appointive power does exist, a ruling should be made on it before the matter before us is properly up for a vote.

Mr. Baskin:

I respect my erudite colleague but I don't want him to think he is the only one who knows his history. Mr. Adams, I want to make it apparent, Mr. Adams made midnight appointments of judges who were to be compensated for life and that was the objection made by Mr. Jefferson. If you want to go into history further, maybe we should examine what districts they were in, to have the record complete. However, as far as the Solicitor's opinion, it is our job here, the Chair said, to vote yes or no, and if other Councilmen believe there is some question of validity, they can go into it. I assume the Mayor has done what he does with every appointment and that is, check the validity of it.

Mr. Fagan:

Move to disapprove resolution.

Mr. Kuhn:

Second the motion.

Roll call on resolution.

Ayes:—

Mrs. D'Ascenzo	Mr. Flaherty
Mr. Fagan	Mr. Kuhn

Noes:—

Mr. Baskin	Mr. Michaels
Mr. Kamyk	Mr. Counahan (Pres't)

Yes 4, noes 4.

Mr. Counahan:

The motion did not carry.

Mr. Baskin:

It is apparent that a motion to approve will have the same result. We may have to hold this until Mr. Mason returns.

I move Council approve it.

Mr. Kamyk:

I second the motion.

Ayes:—

Mr. Baskin	Mr. Michaels
Mr. Kamyk	Mr. Counahan (Pres't)

Noes:—

Mrs. D'Ascenzo	Mr. Flaherty
Mr. Fagan	Mr. Kuhn

Ayes 4, noes 4.

The motion to approve did not carry.

Mr. Fagan:

Mr. Chairman, I would like to have our parliamentarian give a decision as to whether or not, since this approval did not carry for the appointment, as to whether or not it would be eligible to be brought up at a future meeting.

Mr. Counahan:

I believe it can be brought up. I am not too familiar with it.

Mr. Fagan:

I am asking for a ruling from the parliamentarian.

Mr. Kuhn:

I join with Mr. Fagan's request.

Mr. Counahan:

We do not have any parliamentarian here, Mr. Fagan.

Mr. Fagan:

Then perhaps we ought to start getting one.

Mr. Counahan:

Maybe, but Council will have to do it and not the Chair. I will take it up with our Law Department and if you are right, it will be dead and if not, it will be brought up in the next meeting.

The Chair presented:

No. 4296.

Decembem 15, 1969

President and Members
City Council
City of Pittsburgh

Gentlemen:

It gives me great pleasure to re-appoint Samuel B. Casey, Jr., 107 Fairway Lane, a member of the Stadium Authority of the City of Pittsburgh, for a five year term, expiring January 1, 1975. This appointment is subject to the approval of your Honorable body.

Very truly yours,

/s/ JOSEPH M. BARR
Mayor

Which was read, received and filed.

Also,

No. 4297. RESOLVED. That Samuel B. Casey, Jr., 107 Fairway Lane, Pittsburgh, Pennsylvania, be and he is hereby reappointed by the City of Pittsburgh as a member of the Stadium Authority of the City of Pittsburgh, for a five year term, expiring January 1, 1975.

Which was read.

Mr. Kamyk:

Mr. President, in view of what happened in the previous case, this time I would like to vote "aye" for the gentlement, but I will vote "no," just to hold it over. In view of the confusion, I would hate to confuse it some more.

Mr. Michaels:

Point of order, Mr. President. The Clerk read the Resolution and I believe there is another piece of business, either the recommendation affirmatively being accepted, and I don't think that has happened—

Mr. Counahan:

The Chair will accept a motion.

Mr. Fagan:

I move disapproval of the Resolution.

Mr. Kuhn:

I second the motion.

Mr. Kamyk:

Mr. President, I still don't understand what I am voting on. Am I voting on disapproval of the resolution or the original motion, which was to hold it over in the first case. If this is on disapproval, I am voting, no.

Mr. Counahan:

This is the second Resolution and has nothing to do with Mr. Flaherty's original motion to hold over.

Mr. Kamyk:

Would the Clerk read the Resolution.

(Which was done)

And the question being called, the ayes and noes were taken, agreeably to law, and were:

Ayes:—

Mr. Baskin	Mr. Michaels
Mr. Kamyk	Mr. Counahan
	(Pres't)

Noes:

Mrs. D'Ascenzo	Mr. Flaherty
Mr. Fagan	Mr. Kuhn

Ayes 4, noes 4.

And there being no majority of the votes of Council, the bill was disapproved.

Mr. Kuhn moved

That Mr. Mason be excused for absence from this meeting.

Which motion prevailed.

Mr. Kuhn moved

That the Minutes of Council, of Monday, December 8, 1969, be approved.

Which motion prevailed.

And on motion of Mr. Kuhn,

Council adjourned.

The Chair:

I have a report from the Law Department.

December 18, 1969

Honorable President and Members

City Council

CITY OF PITTSBURGH

Dear President and Members:

The President of Council has requested an opinion from the Law Department on the following matters relating to the power and procedures of Council in passing upon appointments to the various Authorities of the City of Pittsburgh as submitted by the Mayor.

The appointment procedure in each instance is governed by the relevant statute under which the Authority was created.

Specifically, you have requested an answer to the following questions:

1. What is the effect of a tie vote (i.e. 4-4) on a nomination from the Mayor requesting the appointment of a named individual?

2. Can the name of the same individual be re-submitted by the Mayor for consideration and appointment?

3. Can nominations for appointment be made by the Mayor to a given position prior to the existence of a vacancy?

Because the power of Council over executive appointments is statutory in nature, Council's power stems from the relevant legislation.

The Municipal Authorities Act of 1945, as amended, which governs the Allegheny County Sanitary Authority, provides for the appointment of the Board by the "governing body" of the municipality. In the case of a second class city this means the Mayor and Council. (53 P. S. 309)

Section 9 of the Auditorium Authority Act (Act of 1953 as amended) which governs the Stadium Authority, provides for the appointment by the Mayor with terms ending December 31, 1969. Under

this legislation the consent of the Council is advisory and is not required.

The specific language of the Auditorium Authority Act is as follows:

"The powers of each Authority shall be exercised by a board composed of five members, all of whom shall be residents of the county organizing the Authority or the county wherein the city organizing the Authority is located. The municipal authorities of the county or the Mayor of the city shall appoint the members of the board, whose terms of office shall commence on the date of appointment, and one of whom shall serve for one year, one for two years, one for three years, one for four years and one for five years, from the January first next succeeding the date of incorporation. Thereafter whenever a vacancy has occurred or is about to occur by reason of the expiration of the term of any member, the said municipal authorities or Mayors, as the case may be, shall appoint a member of the board for a term of five years to succeed the member whose term has expired or is about to expire Members of the board may be removed at the will of the appointing power, and, in the case of a joint county-city authority, the fifth member may be removed at will by either of the appointing powers." [53 P.S. 23848]

Pursuant to the statutory language set forth above, appointments to the Board of the Allegheny Sanitary Authority require the approval of Council. Appointments to the Board of the Stadium Authority do not require the approval of Council, and appointees to the Stadium Board may be removed at "the will of the appointing power" i.e., the Mayor of the City of Pittsburgh.

Procedural Questions

On the procedural questions on which Council has requested an opinion from the Law Department, we have prepared the following answers:

1. A Resolution approving the appointment of a named individual requires a majority vote of Council for passage in the same manner as any other legislation. Pursuant to the Rules of

Council, a majority vote consists of 5 affirmative votes. A tie vote, with 4 affirmative votes and 4 negative votes, cannot pass a bill. Therefore, in effect, such a bill is rejected and the appointment is not approved.

2. However, there is nothing within the governing legislation applicable to authorities, which limits the number of times that a nomination may be submitted to Council for approval. Such nominations, which require the approval of Council, may be resubmitted to Council at the discretion of the Mayor.

3. It is our understanding that the term of office for members of the Board of the Stadium Authority and the Board of the Sanitary Authority expire December 31, 1969. Therefore, the proposed appointment cannot take effect until January 1, 1970.

While a name may be submitted for approval by Council, no valid appointment can be made until a vacancy exists.

Summary

In summary, pursuant to the language of the Public Auditorium Authorities Law, a member of the Stadium Authority Board may be appointed by the Mayor without action by Council and may be removed "at the will" of the Mayor. Approved by Council to a position on the Stadium Authority Board is purely advisory and is not required by the Auditorium Authority Act.

Approval of Council is required for the appointment of a member of the Board of the Allegheny County Sanitary Authority. A tie vote must be considered as a rejection of the nomination, but such name may be re-submitted at the discretion of the Mayor.

Parliamentary Procedure

You have also requested the opinion of the Law Department on the need for a Parliamentarian at the meetings of City Council.

In the past the Law Department has served as the Parliamentarian for Council. In the event that Council wishes a parliamentarian to be present at all meetings, a representative from the Law

Department can be assigned to attend all formal sessions of Council.

Very truly yours,

MARION K. FINNELHOR
City Solicitor

MKF:rms

Mr. Fagan:

I have a question at this time. In that this is a State Statutory law, then it would be my feeling that the Parliamentary rule on this would be of the State Legislature, not the Law Department. As a result of that, I'm requesting that the Parliamentarian of the State Legislature rule on the position of the Council being in a position of giving approval to the appointment of the Mayor and City of Pittsburgh and the Stadium Authority.

The Chair:

In so far as I'm particularly concerned, this was sent to them and I'll refer the subject matter back to her, and if you think it should go any further we'll do that, but I think it's covered in most cases by an agreement and by the State Law, and she went into it very thoroughly. I don't think it is necessary to go any further. That's my personal opinion, Mr Fagan, and if Council wants it to go any further . . .

Mr. Fagan:

You have a right to your opinion and I have a right to mine, and I'm saying now that in my opinion the Law Department of the City of Pittsburgh has no authority to make a ruling of a State Statute, and I say that we should refer it to the State Parliamentarian for a decision to the question at hand.

Mr. Kuhn:

I think naturally we have to rely on the Solicitor's interpretation on it and statutes as they apply to us. We aren't bound to accept an interpretation as far as procedural rulings of the chair is concerned. It seems to me that the legislative body, like legislative bodies generally do in any government, has to make its own rulings through the

chair and if appealed by the chair then to the body itself. A Parliamentarian, if we chose to have one, might advise the chair, and might advise the body, but it would only be advisory and would not have any compelling effect, but the Parliamentarian might ultimately be the making of decisions of substance that we are elected to make.

Mr. Mason:

Mr. Chairman, I was absent during these discussions on the nominees, and I'm well aware of concerns of other colleagues of mine. Is there any name before us at this time, or can you clarify for me, and I thought I listened very carefully, but maybe I missed the point in the ruling of the Law Department in regard to the Stadium Authority, that there need not be reflection in terms of statutory effects from the State Legislature. In other words, if I understand this correctly, the Mayor can name anybody to the Stadium Authority and without reflection or without approval of this body. On the other hand, if I understand correctly, the appointment to ALCOSAN does require the approval and I would like to be corrected if I am wrong. I'm not wrong, okay. Is there a name before us for this discussion at this point?

The Chair:

The chair does not have anything in front of them, whether any other member of Council does or not, I do not know. It wouldn't be before us at this particular time.

Mr. Mason:

I'm aware of my colleague, Mr. Fagan's point of view from the newspaper articles that appeared, and Mr. Kuhn's and Mr. Flaherty's. I just want to make sure that in terms of a Parliamentarian that we are straight on the issue and I think Mr. Kuhn has brought this up quite clearly to the extent that I have a much better understanding, as I'm sure some of my other colleagues do relative to a Parliamentarian from the State Legislature. Thank you.

The Chair:

Anybody else care to be heard?

Which was read.

Mr. Michaels:

I'd just like to make a statement with regard to Bill No. 2257. I too voted for the passage of this bill and was pleased to do so because I think there is a great need for this type of housing in the City of Pittsburgh and in deliberating with myself with regard to this I had to recognize that certainly the

people who were building this structure were conforming to all existing codes and were not asking of us anything in the way of changing any of the laws, but purely to allow them to use their property. Certainly their record is an exemplary one with regard to this type of elderly housing.

However, I also was mindful of the unrest and unhappiness demonstrated by the citizens of the community and I think it was with good reason also. I believe that the cause for this was the failure on the part of the constructors to adequately consult and use our own Planning Department before they took their plans to Washington. They did not properly inform the neighborhood of what their intent was and, therefore, developed this unrest and disturbance.

I think this ought to serve as a reminder to other people who have an intent to do this that when they build this type of structure on tax exempt land and using some of our own City facilities, they ought to be aware that they do this with the generosity of the people of Pittsburgh and are to be properly considered with their rights when they go ahead with this type of construction.

Mr. Mason:

Mr. President, in my short time in City Council I would have to agree with my colleague, Mr. Michaels. However, we are plagued with a problem of communication. Despite City Planning's best efforts, as I understand to be in operation to notify these people, we are burdened with the task of notifying every organization in the City of Pittsburgh if they are going to do certain kinds of things in the field of zoning and in the field of housing and the field of urban redevelopment. This seems to be a burdensome task and I just don't know how you do this. There is also going to be, it seems to me from my brief experience in City Council those institutions, those societies, those organizations, who because either of their political influence or their political affiliation or because they know somebody in Washington going to take it upon their own and by-pass City Planning.

It is a problem with which we are going to have to grapple with. I would strongly urge that wherever possible, whenever the City Council is confronted with this kind of problem, that we raise the question with such a group or organization, "Have you discussed this with City Planning prior to any consideration by this august body?" I really do. I feel very keenly about this because we don't have any ways of notifying all of the organizations in town in terms of the fact that they have a responsibility on rezoning to go to the City Planning Commission. We just don't have it and it is the kind of a thing that people don't read even after we advertise.

I know Mr. Kuhn has brought this point up repeatedly, and so I don't know exactly how we cope with Mr. Michaels subject here in terms of trying to notify all these organizations of the steps they are to enact in these procedures. We are always going to be plagued with this.

Mr. Flaherty moved

Which was read.

The titles of the bills were read and agreed to.

The bills were read on final action.

And on the question, "Shall the bills pass finally?"

Ayes:—

Mr. Baskin	Mr. Kuhn
Mrs. D'Ascenzo	Mr. Mason
Mr. Fagan	Mr. Michaels
Mr. Flaherty	Mr. Counahan
Mr. Kamyk	(Pres't)

Ayes 9. Noes none.

And a majority of the votes of Council being in the affirmative, the bills passed finally.

Also,

Bill No. 4259. An Ordinance en-

titled, "An Ordinance levying taxes upon all real property subject to taxation within the limits of the City of Pittsburgh for the fiscal year beginning January 1, 1970, and ending December 31, 1970, in the amount of ----- mills on land and ----- mills on buildings, and providing for the payment of such taxes.

Which was read.

Mr. Kuhn:

May I ask the Chairman of the Committee on Finance whether the action is to be taken on Bill 4259 will be the final action with respect to the real estate millage for the year 1970. If so, how will we cover the situation that may arise tomorrow if by that time the Legislature has not adopted the bill which makes it possible for us to increase the occupation privilege tax from ten to twenty dollars.

Mr. Baskin:

Well, I think, as you know, we recessed the Committee meeting to one o'clock tomorrow and I think we should recess this Legislative meeting until a quarter of one tomorrow and that way if you learn that the Legislature is not going to adopt the twenty-dollar occupation tax statute, then you will have to take such action to add to the millage as would bring you an amount to equal what you would lose from the failure of the Legislature to act. I think that way we are protecting it.

Also, I would suggest, after talking to the Solicitor, that it could be that if that still is in limbo, if the Legislature is still talking about it and cannot determine which way they are going to act, that it could be done in several ways. The first might be to adopt a twenty-dollar ordinance with a clause that would delete ten dollars if the Legislature fails to act on it, or you could do it in the reverse. This way you could have a ten-dollar one with an additional ten-dollar one to go into effect the date acted on. What I'm saying here is that after we adopt this today that tomorrow there will be time to take care of any failure of the Legislature to act.

Mr. Kuhn:

I don't believe you have—perhaps I don't understand you, but I do not see how if this bill is declared by the President to have been finally passed today, fixing the millage at five mills on land and two and a half mills on buildings, how will it then be possible for us, tomorrow, to take any other action with respect to this bill?

Are you saying that for all the voting that we will not increase real estate taxes more than the amount set forth in this bill whether we get the authority to increase the occupation privilege tax or not? If so, how will we then meet the further anticipated deficit in the budget of somewhere near three million dollars?

Mr. Baskin:

Well, I think it can be done by recommitting the bill. But if you prefer the other procedure, that is to hold this up, if one of the ones who voted against this today would agree that they'd abstain tomorrow so that the same vote can carry through. I'd be perfectly willing to hold it. I think, as a matter of legislative courtesy, that has been done, and since we are agreed that the vote was five to four today, I'd be willing to hold to recommit this bill to the Committee Meeting tomorrow without acting on the millage now, with the understanding that if there is no increase necessary for the Legislature, that there be no increase in the bill beyond that which was discussed and voted on today. I think that is certainly a perfectly legitimate way to present it and I think the logical one.

I think whoever abstains can make known his choice, at that time, abstaining to the vote today and do as a matter of courtesy to me.

Mr. Kuhn:

As I understand, the bill is before us for final passage. We have no motion to recommit. The remarks that have been made so far still leave me in doubt as to where we shall be tomorrow when we reconvene, with respect to our budget for the year 1970.

Mr. Baskin:

I said that I will be willing to make a motion to recommit it now to the Committee if Council would agree that somebody will pair off with me on the vote so that the results would be the same in case the Legislature does vote affirmatively on the bill. Now if you don't want to do that and you want me to stay over tomorrow . . .

Mr. Kuhn:

I don't like to interfere with the inconvenience of any member of Council, but the difficulty lies with what we do when we reconvene tomorrow. We have the bill up for final passage.

If it is finally adopted then the Mayor may either sign the bill or reject it. Now if we recommit this bill and tomorrow we have before us a question is influenced by action taken or not taken by the General Assembly that we cannot foresee now, I don't know how we can bind ourselves by any party of legislative courtesy. I can say that I won't vote tomorrow with respect to this bill because tomorrow, at this time, we may be faced with quite a different situation than we anticipate right now. It's a practical question, but I don't mean to inconvenience my colleague. But I do want to know how I'm going to be able to vote. What bill will be before us now and tomorrow and how are we going to complete the budgetary problems of the City for the year 1970?

The Chair:

In so far as we are here, once a bill is up for final action and is passed or defeated, it is acted on and there would be nothing on it in Committee Meeting. No question about it. Now then, the only motion that you want to discuss would be to recommit. You want to change that with my argument? Although I didn't express myself there possibly as clearly as I should have, but once it is here and we have taken action on it that is the end of the bill. That is the reason I don't think we should have even done anything with it.

Mr. Baskin:

Mr. President, it is very simple.

The Mayor has estimated a certain amount to come in from the twenty-dollar occupation tax. There should be deducted from that estimate five hundred thousand dollars, which I did in my calculations, to take care of the increased exemptions. Now if the measure doesn't pass, then we have to raise the millage within an amount equal to one half of that net result, and that can be done very simply. I'm simply asking Mr. Kuhn if he is willing to recommit the bill to act in that way rather than reopen this matter when we can't have nine members here and I think it can be done. Otherwise, we have one of two choices. We can pass the bill today and leave it up to the Legislature, regardless of what happens. Or I can stay until tomorrow, which I'm perfectly willing to do.

Mr. Kuhn:

Mr. Chairman, this isn't up to me. If there is a motion to recommit, that's it. The only thing I can say is I don't want to necessarily inconvenience you, but I do not see how I can vote differently tomorrow because I don't know in what frame the issues will be before us when we meet again tomorrow and I still feel that we have to be in a position to adopt a balanced budget for the year 1970, and I'm sure you concur with that.

The Chair:

Anybody else?

Mr. Baskin:

Could we ask somebody to ask Mrs. Finkelhor to come up here?

The Chair:

It is perfectly alright with me, but I don't see what she can do. You will either recommit it or you vote on it. That is the only way. But if you want her up here, you can call her.

Mr. Baskin:

Mr. President, I think it comes

down to this. If the Legislature is not going to pass the occupation tax, then you will lose three million three hundred thousand dollars in estimated revenue for the Mayor's budget. That would mean that you would have to raise the millage to nine and four and a half. That is what that means. Now I have agreed with Mr. Mason that I will make a motion to recommit this bill and if the only thing that occurs is that you have to make up the deficit in the fallure of the occupation tax. Then it would go to nine and four and a half, and it looks like it is going to be passed, that he will pair off with me so that the millage will remain as recommended by the Mayor's budget. Therefore, on that basis, I move to recommit Bill 4259 to Committee.

Mr. Mason:

I second the motion.

Which motion prevailed.

Also,

Bill No. 4298. An Ordinance entitled, "An Ordinance repealing Ordinance No. 392, approved July 8, 1969, entitled, 'An Ordinance authorizing and directing the issuance and sale of general obligation bonds of the City of Pittsburgh in the aggregate principal amount of Nine Million Seven Hundred Thousand Dollars (\$9,700,000) to provide funds for the purpose of paying all or part of the costs, damages and expenses, including the payment and redemption of short-term notes which will mature on February 2, 1970, evidenced by outstanding Notes of the City designated 'Temporary Indebtedness Note Nos. 1-A, 1-B and 1-C of 1969,' in an aggregate principal amount of Seven Million Six Hundred Thousand Dollars (\$7,600,000) and interest thereon in an amount not to exceed Two Hundred Twenty-Four Thousand Eight Hundred Fourteen Dollars and Twenty-One Cents (\$224,814.21), which Notes were issued in contemplation of this bond issue to provide part of the funds required below, planning, engineering and architectural expenses, expenses in connection with the acquisition of necessary property and property rights, and other expenses necessarily

Mr. Fagan and Mr. Flaherty qualified their vote on the Bill by stating that

they were voting "Aye" with the exception of that portion referring to the Institution and Service Privilege Tax.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Baskin

Before we leave the Committee, I'd like to make a motion because normally we do our discussion on the bills in the Legislative sessions as we did at this today in Committee, I'd like to follow something we have done previously, so I move that the proceedings in the Committee on Finance on the bills that were just passed by this body be incorporated in the minutes of this Legislative Meeting so that they will be on record.

Mr. Kamyk:

I second the motion.

The Chair:

Bill 4214, that is the appropriation bill. Somebody want to move on that? Now let me say one word about this appropriation bill as it relates to just several matters. The appropriation bill has been increased by Council with some suggestions from the Mayor-Elect which I'll go into and some of my suggestions and some of the other Council members.

The budget will be increased approximately nine hundred and eighty thousand dollars over the Mayor's proposed budget. Council has authorized increases of approximately six hundred and fourteen thousand dollars of that nine hundred and eighty thousand dollars. The difference between the 614 and 980 is accounted for by adjustment in the Water Department of water expenses and some miscellaneous adjustments throughout the budget which run into a number of items.

Now the important thing is about what Council has added are these: For the Mayor's Office we are adding ten thousand dollars for equipment because the office badly needs some refurbishing. There is no question that it has become run down and needs work.

The other part of the Mayor's Office that is involved are two matters. One that has to do with the pay to the major directors and, at the request of Mr. Flaherty and which all members of Council agreed, the directors are being raised to twenty-two thousand dollars and twenty-five thousand dollars, and a list of those directors will be set forth in the budget. Now the reason for that is that Council and the Mayor-Elect have discovered over the past two years, but with increasing intensity over the past six months, that it is impossible to get people to run these Departments with all the responsibilities that are entailed in them at the salaries that have been paid. As I said before, contrary to what the public likes to believe and what newspapers like to believe, most people in government work are underpaid. This is true of our workers at the lower levels as well as our directors at the high levels, and as one way of trying to see to it that a hundred million dollar budget for the City of Pittsburgh is administered properly and efficiently, we have decided to take this step and make it possible for the City to obtain people for these positions and to keep people in these positions who already have them.

We have compared the compensation paid to similar people in other Cities and we are by far the lowest on the scale. We pay our major people less money than a City of much smaller size, and in raising them to twenty-five and twenty-two thousand dollars we are not even coming to the levels of most of the other Cities. But we feel that this will give us an opportunity to keep and to get the kind of people that we need to administer to a City of this size.

As for the Mayor's position himself, at my urging, and I stress that, at my urging and with the consent of Council and without the request of the Mayor-Elect, we are putting in a salary of thirty-five thousand dollars for the Mayor.

I want to review very briefly the salary of the Mayor because this is one of the things that Mayor Barr and I fought about continuously without my ever winning. The salary of the Mayor was always too low. It was twenty-thousand dollars years and years ago, and here is a City with a budget of one hundred million dollars—an important job, and to

expect a Mayor without an expense account to do that job for twenty-seven thousand and five hundred dollars is just utterly ridiculous. The thirty-five thousand dollar amount is not nearly enough for a job of this stature. But in view of the way all of our employees are underpaid, it seems fitting that we not go any further than that with the Mayor's Office, although I, and I think most members of Council, believe that this is still too low.

The Mayor has expenses connected with his office that he cannot obtain reimbursement for that are directly related to the carrying out of his functions. We also have to remember that for the next four years, no matter what happens to the cost of living, the Mayor's salary cannot be raised during his term of office and we are taking that into consideration.

So that I think that is a very modest salary for a position of that kind and I'm glad finally that Council has determined to make a break-a-way from the past and to start, at least in the direction of paying the compensation to the Mayor and to the Department heads, at least somewhat in the manner that is deserving of those offices.

I want to make it clear again that the Mayor-Elect did not know about this. As a matter of fact, it came as a surprise to him today and I think we prevailed upon him to accept this along the line for the reasons that I have stated.

Now the other matters that are of note in increasing this budget are as follows: We have allowed sixty-seven thousand dollars in payment for the school guard. What we have done is to increase their salaries much higher than a normal five percent increase. Now the reason for that is, which is obvious, these women are now practically on call eight hours a day. They actually are on their post between five and six hours a day. They cannot leave their homes during the eight hour's period they are on call, in case the schedule of classes are changed at these schools. What we had been paying them was so low for the kind of work that they were doing that we decided that we would move toward their request. They had requested a three-dollar an hour increase. We did not

meet that request. It fell short of—how much is that an hour they are getting now? Fourteen dollars a day, an increase of two dollars rather than three dollars requested. The school guard have always performed their functions in a manner which has brought credit to the City and I think this is a much needed step.

On the Parking Meter Maid we have increased the appropriation fifty-seven thousand dollars. We are not increasing their base pay except for the five percent increase, but we are putting them on an eight-hour day, rather than a six-hour day. The Director of Public Safety and his Director of Planning, Traffic Planning, both say that if Meter Maid enforcement is increased that we will get better parking for our people and also increased revenues and rather than call out more people for a short six-hour day it was decided to add to the working day of the present Meter Maid and also to add five more, which accounts for the total increase.

In Public Works, which has so many house-keeping functions to perform for the City, Director deMelker had requested several million dollars more than last year from the Mayor's office when he came. These were denied. When he came to Council we denied most of them, but Council felt after deliberation that in order to try to keep up with the maintenance work on the streets, which would save a great deal of money in repairs in subsequent years, that we would allocate an additional two hundred thousand dollars to the Department of Public Works for laborers, truck drivers, rental equipment and materials, which will enable the Director to do more maintenance on the streets, and, as I have said before, to avoid more costly repairs in the future.

In Parks and Recreation, we allocated an additional five thousand dollars for special services.

The other major additions were really with our employees. As you know, in giving them an increase of five percent, with a five hundred dollar top we really were barely keeping up to the cost of living on our low-paid-employees and we are not keeping up with the cost of living on those employees making more

than ten thousand dollars five hundred dollars to an employee over ten thousand dollars is not five percent. We felt they merited additional increases, but in view of our revenue situation we felt that we could not give to them what they are really entitled to, just as we could not give to our various Departments the appropriations they requested in which they are really entitled if you are to maintain the City in the kind of condition that you really want.

However, for our employees in addition to the increase, we are appropriating forty-three thousand six hundred dollars toward a major-medical policy which will enable each employee to obtain coverage in addition of blue cross and blue shield.

Now this will mean fifty-nine cents a month per employee and this employee also has the option to pay an additional amount from his own earning to cover his family under this major medical. We are only covering the employee himself.

On the blue cross and blue shield coverage, we have had requests from every employee representative that the blue shield or blue cross be covered by City payments. This has become almost in part of the industry pattern outside of the City employment we started several years ago by giving a two-dollar month payment toward this hospitalization cost, and because of our desperate revenue situation, it cannot cover the hospitalization costs for these employees. But we have decided to indicate to them our concern for that problem and our willingness to move on that problem in the future by adding another two-dollar payment by the City so that the City will be paying four dollars a month toward hospitalization coverage for our employees. I'm sorry, that is six dollars rather than four dollars.

On group life insurance we are appropriating twenty-three thousand dollars more so that we can increase the coverage upon retirement and while they are employed from two thousand dollars death benefit to four thousand dollars. We feel that with costs going up over the years as they have, that this is barely keeping up with what is necessary for our employees in that connection.

I have already discussed the other increases in the Director's and in the Mayor's office.

The Law Department is being increased twenty-eight thousand dollars because of the tremendous volume of legal work that has been piled on the Law Department in the past several years.

I'd like to point out that in making these increases City Council turned down the request of the Department heads for millions of dollars in increases, as I spoke to before, there was merit behind every request. The departments wanted more materials. They wanted more workers. They wanted more money for their workers; in every one of these requests and they were justified. We would be doing more for the people of the City. On the other hand, because we have to provide services for so many people who do not pay taxes, we have difficulty in obtaining needed revenues. So, very reluctantly City Council turned down all the requests. They did not give payroll increases other than the five percent to the employees, except the once that I have indicated, and we are hopeful that in the future, if we can obtain proper revenue, new sources, that the inequities in the payroll that now exists as compared to outside payments and the appropriations needed by the Departments to give the City the kind of top-flight service that it deserves for its residents and non-residents alike, that we will be able in the future to do that with additional revenue sources.

Now those are the additions that were made to the appropriations as outlined in the Mayor's budget action, and they will become part of bill number 4214.

Are there any questions or discussion?

Mr. Flaherty:

I might add in addition to what you have said, Mr. Baskin, that it is no secret that I have been interviewing, as I pledged to do, skilled managers for this City in the form of Directors for cabinet positions in the City and I have been interviewing men in the City and some I have been flying outside of the City of Pittsburgh in an attempt to get better skilled management in to the City budget.

As much as the Chairman has pointed out we are far under what most Cities pay in the range of a City of our size to its directors and Department heads. I feel that, and I have suggested that the Department heads be brought up to the specifications that have been set forth in the budget.

I think in the long run, the City would better itself by getting the very best management it can to run these Departments and it is a pledge that I made, as all of you know, during the campaign itself.

As to the Mayor's salary, this was a matter that came up this morning. I had been under the impression and I'd felt that as Mayor Barr proposed, that twenty-seven thousand five hundred dollars was already set by law, but I'm told that it is otherwise. He did not make it at my request. But quite frankly, on the other hand, I'm not going to vote against it. I think that it is going to be the salary that is going to have to last the next Mayor for the next four years. I think, too, we can see that in the Director's salary, Chief Executive Officer salary, it might not be a good thing, which very conceivably could happen within the next four years. Even though it is not at my request I will not vote against it. No matter who is sitting in the Chair, I would vote for this particular bill.

The additions that have been comprised in the City budget, itself, is about six-tenths of the total budget, that is the additions by City Council. Most of them were already in the Executive Departmental estimates that were originally submitted to the Mayor. I recognize that the greatest addition is for street maintenance, the street improvements, and I think we found out during the campaign that this is a very high issue among the people of this City and you can't have it if you are not going to pay for it. Rather than be penny wise and foolish and just eliminate the amount that is necessary for street improvement. I feel this is the greatest addition in the six-tenths, and is a very necessary one.

Mr. Kuhn:

I'd like to say that I think the outline that has been made here has been

quite to the point of bill 4214 and 4215, the salary ordinances. It has been thorough and we have all participated very carefully in the deliberations.

I'd like to add to what Mr. Baskin and Mr. Flaherty have both said that there are certain appropriations to the City budget which I hope are going to be added to it this year and in these instances, particularly, I hope we have not cut the Mayor, and we have not cut too much.

There are accounts that we may experience because of unforeseen or possibly foreseeable increases in monies that will be necessary during the year. I think what we have done here is to make what is really as balanced a budget as we can, recognizing costs of living as a substantial factor that has to be met for our own employees and I hope we are not going to be faced with it during the year of additional emergency appropriations. I note, for just one account, for example, that we are appropriating this year for police overtime, some of which is only half of what we have had to spend for the year 1969.

We have reason to believe that this may be added and we are speaking with careful attention, to police assignments during the year. It should be. During 1969 we exceeded our budget appropriation by half a million dollars, by more than a half million dollars. For 1970, this item has gone up and we hope we will be able to live with it. I was impressed during the hearing with Director deMelker's estimates with regard to street maintenance and also the necessary maintenance of those public ways within the housing authority areas for which City maintenance is necessary and which we hope our appropriations will be adequate.

I will say finally with regard to the Mayor's and Director's salaries, I agree with Councilman Baskin and with Councilman Flaherty, that this is necessary in order that we can attract and maintain fully qualified people and I think in comparison with organizations, many organizations in the City some of which administer affairs and budgets of substantially less than the City of Pittsburgh, and much less administrative responsibility connected with them of salaries, substantially in excess of what we are proposing for the Mayor.

Mr. Fagan:

Mr. Chairman, in regard to bill 4215 where it establishes the compensation for the employees of the City of Pittsburgh I would like to point out that, unfortunately, that we haven't been able to accomplish for our employees what they rightfully are entitled to comparing it with the cost of living, inflationary spirals, and the other problems that are faced by City employees, the same as in private industries, where in most cases they have received not only the cost of living but improvements factors in it.

I think that it points out our inability to levy the type of taxes on the people that enjoy the services of this City of Pittsburgh and unless we are able to get a proper home rule, and be able in the future, that all I see is a loss of the proper type of employees that is necessary to run the City of Pittsburgh, which becomes a more responsible measure in each budget year.

I would like to say that I agree as far as the Mayor's and Director's salary is concerned to get the responsible people that can fully administer and help the elected Mayor and the Council to administer the affairs of this City. It is necessary that we do pay them a proper wage, but I also want to say that as far as the other employees are concerned actually it is just as important generally from the production of work that we are able to, from the laborers on up, that we should properly compensate them. I say unless we find ourselves in a position to be able to apply broad-based taxes on the non-residents as well as the resident of Pittsburgh, then I think the City of Pittsburgh is going to find itself in a position where it is not going to be capable of having the type of employees that is necessary to carry on the responsibilities of this City.

I think, further, when we levy, put the additional tax on parking, I think as was pointed out to us in a hearing this morning, it is very improper, because it hurts the very center core of our City of Pittsburgh of which we are most dependent on, our greatest tax producing revenues come out of the City and we are continuing taxing them because of our inability to put a tax that would equally tax everyone that participates in the service of the City.

I say the same thing as far as the institution tax has been challenged. Now that it has been challenged it is reasonable to hold to the decision of the judge here in the Common Pleas Court, and, as a result of it, we won't have the advantage of it. But I think whether it is legal or not, it is improper to levy these type of taxes, and I think what we have to do is work continuously and it is necessary for everyone to do their part to see that the City gets a home rule charter so that we can, in effect, tax properly and to compensate the people with what they are rightfully entitled to.

Mr. Mason:

It is extremely difficult to discount legitimate requests of these employees groups that came before us and I would have to say that Council has done the very best it can in terms of its revenue and I, again, would strongly urge that we harness as much, Mr. Mayor-Elect, of these forces who have indicated a willingness to come before the Legislative Committee some time in early January to take a very close look at tax exempt properties in terms of taxes. That is what Mr. Fagan has said, in effect, is that we will just be out of competition. We can't maintain effective workers unless we are able to go a little bit more than five percent and I would hope that we would be able to get the home rule charter too, Mr. Chairman, and that we should harness—and they all indicated that they'd be willing to testify before a Legislative Committee coming up to examine tax exempt property, and I think we need this too.

I think we have to harness this force and so much of the testimony came from people who did not live in the City. They should contact their Legislators so that we can broaden our base and cut down some of the other taxes.

Mr. Counahan:

I'm going to digress just a little bit. I concur in the remarks of most of the speakers before me and I just want to say this to you. I want to thank you for doing a wonderful job while you were the Finance Committee for the City Council. You worked hard and diligently and you have done an excellent job.

You possibly have been criticized a little bit, but not by the members of Council. We know that you extended an awful lot of effort, and you did what you thought right and we concurred in most all cases.

I want to thank you and I know you will be missed around here and I believe that I think I'm speaking for all the members of the Council. I wish you God speed and good luck and everything with it.

MOTIONS AND RESOLUTIONS

Mr. Baskin:

I wonder before you make a motion to recess since this is the last time that I will be with you as a Councilman, I wonder if I might make a few remarks.

First, I'd like to thank the President of Council for his kind remarks in the Committee Meeting. I also want to thank the members of Council for their un-failing courtesy and support even despite disagreements on the budget work for this year. I don't think I could have had any group which is more willing to accommodate itself to meeting at any time including weekends and evenings to work on this budget. It is really because of their cooperation and willingness to work that I think we were able to arrive at this point, although there is no question this has been the most difficult budget year that we have had for a number of reasons which are obvious.

I also want to say, as I said in a private meeting with members of Council not long ago, that I have thoroughly enjoyed my association with members of Council. The one thing that has impressed me about this Council is the courtesy to which each member has always treated the other in consideration with which they treat each other and, that after the battle is over, no matter how the votes have gone, there has been no hard feeling and I think that is a remarkable facility among all the members of Council. I think it is a great attribute to this body, and the City of Pittsburgh is better off for the fact these people have that capacity. I only hope that that continues in the future.

I also want to repeat what I said before, I'm very grateful to Council for tolerating me at various times during the past eight years and although I'm probably the easiest guy in the world to get along with, I know that there were times when I must have tried the patience of various members of this Council and they were kind enough to overlook the instances. I think that is

what makes working with this Council enjoyable and despite our differences in the past on various individual matters, I'm sure we all had the interest of the City at heart.

With this in mind, I want to repeat what I said before that I wish the Mayor-Elect the best of luck in his administration. The welfare of the City of Pittsburgh depends upon how well he does and regardless of how any of us might have felt about his candidacy at one time or another, there is no question for the good of all of us we should all wish him well with no reservation. I sure do and I wish the members of this Council all the best of luck and the best of health.

Mr. Flaherty:

Mr. Chairman, almost Councilman emeritus, Phil Baskin, first of all I want to thank you for the kind words in your mention of me and the rest of the members of Council.

Even though Phil and I have not always agreed on this Council, I always had a great deal of the utmost respect, as a matter of fact, for his hard work and brilliance. I recognize also, that he has always had a most difficult Committee, the Finance Committee, to work on and he has worked hard, very hard on the budget of this City over the past four years and I know that we will miss you, Phil. I have also thought, too, that when we haven't agreed that our differences were legitimate ones.

I certainly wish you well in your new pursuits, whatever they may be and best of luck to you.

The Chair:

We certainly will miss you, Phil, and I know you have been the finance Chairman of this very, very difficult times. Of course we can see more difficulty in the future and we are going to have a very tough time replacing you and, again I wish you all the luck in the world.

However, the Superintendent may, upon presentation of satisfactory evidence that unusual difficulties have prevented the work from being started or continued within the specified time limits, grant a reasonable extension of time, provided such evidence is submitted prior to the date of expiration of the permit.

SECTION 309. SUSPENSION OR REVOCATION OF PERMIT. Whenever the work for which a permit has been issued is not being performed in conformity with the plans, specifications and descriptions filed with the application, the Superintendent may suspend or revoke the permit in accordance with the procedures set forth in Section 223 of the

sance, the owner of the property upon which such operation is located, or other person or agent in control of said property, upon receipt of notice in writing from the Superintendent, shall within thirty (30) days of the date of such notice or less in emergency situations, comply with such requirements of the ordinance as the Superintendent may direct, or take such other action ordered by the Superintendent to eliminate the hazard or nuisance, or other danger to the public street or way. Where compliance with the order of the Superintendent may not be possible within such period, and where public safety will not be adversely affected, the Superintendent may grant an extension of time for a specified period for compliance.

ARTICLE IV STANDARDS

SECTION 401. APPLICABILITY. The following standards for operations and activities set forth in this ordinance and herein defined as "Land Operations" shall apply to any work performed pursuant to a permit as required herein, and shall also apply to such operations and activities regardless of whether a permit is required under this ordinance.

3. Compacting and Benching. All fill shall be compacted to provide stability of material and to prevent undesirable settlement and proper benching shall be provided as required, in accordance with the recommendations of a (registered) engineer or as approved by the Superintendent.

SECTION 403. DRAINAGE.

1. Accommodation of Surface and Subsurface Water. Sufficient drainage shall be provided to accommodate surface and subsurface water during any grading operation and after its completion in order to prevent additional water from flowing onto adjacent property or from unduly increasing the load on sewage or drainage facilities. Facilities in the form of pipe-pervious granular layers, buried granular trenches, etc., shall be provided to control subsurface drainage.
2. Preservation of Natural Drainage-ways. Any operation that will change the course, width or elevation of any natural or other drainage-way channel in such a manner as to obstruct, interfere with, or change the drainage of such land shall be compensated by an alternative by which run-off or seeping water can be carried to a satisfactory disposal.
3. Protection of Slope Faces. Adequate provision shall be made to prevent any storm or surface water from damaging the cut face of any excavation or the sloping face of any fill. When necessary for protection of critical areas during construction, diversion ditches or terraces shall be provided.
4. Design of Drainage Facilities. Drainage facilities shall be of such design as to carry storm and surface waters to the nearest practical street storm drain or natural water course, approved by the Department of Public Works as a safe place to deposit and receive such waters.
5. Protection During Construction. Suitable areas shall be utilized for spreading and desilting storm wa-

ter. Protective vegetation shall be maintained on drainageways serving as temporary outlets for storm water, during construction and until storm sewers have been completed. Wherever necessary, sediment basins (debris basins, desilting basins or silt traps) shall be installed and maintained during construction.

6. Sub-Drainage Facilities. Adequate sub-drainage shall be provided in connection with any fill to avoid the development of hydrostatic pressures.

SECTION 404. PROTECTION OF ADJACENT PROPERTY AND UTILITIES.

1. Prevention of Slides or Washes. Materials shall not be permitted to roll, slide, flow or wash onto adjacent private or public property, and where necessary, walls or benching shall be utilized to comply with this requirement.
2. Horizontal Distance of Excavation or Fill Slope from Property or Easement Line. The horizontal distance from either the toe or top of the excavation or fill slope line shall be five (5) feet or one-half ($\frac{1}{2}$) of the vertical height of the fill or excavation from any adjoining property or easement line, whichever is greater, but such distance need not exceed ten (10) feet. The Superintendent shall have the authority to modify this requirement in instance where it is demonstrated that such modification is needed to secure desirable interrelationship between properties and will not result in a condition detrimental to the adjacent property.
3. Support and Protection of Public Utilities and Public Streets. A firm commitment shall be in effect for proper support and protection from drainage resulting from the operation for all public and private utilities, whether on the surface, beneath the ground or overhead, and when necessary, for the repair, replacement or relocation of such utilities. The surface and other facilities of public streets shall be

fully restored by the holder of the permit, in the event of such damage. The owner shall correct any damage to the utility involved before the Superintendent issues the completion certificate.

4. Fencing. Should the nature of land operation, in the opinion of the Department of Public Safety, create a hazard to persons or property, unless adequately fenced, the owner shall construct such fences or guard rails as safeguards to persons using adjoining property (public or private).

SECTION 405. GROUND COVER.

1. Scheduling of Areas to be Stripped. Areas to be stripped of natural cover shall be limited to those required by feasible operational schedules, which schedules delineating those areas shall be submitted with the application.
2. Interim Protective Vegetation. Protective vegetation and/or mulching, or artificial cover, shall be established on all areas where soil is to be exposed for more than six (6) months, (including topsoil stockpiles and borrow pits), except that this provision shall not apply to land operations where the principal material used for fill, or the principal material being excavated or stockpiled, consists of slag or other material with similar qualities of inherent stability and impervious to weather.
3. Preservation of Natural Features. In order to prevent the denuding of the landscape, wherever practical, large trees and other natural features which constitute physical, esthetic and economic assets to the community shall be preserved and shall be protected during ground moving operations.
4. Final Ground Cover. Permanent final vegetation or other ground cover shall be installed as soon as practical in the development. Upon completion of the operation, the entire site shall be ground covered and provided with drainage facilities in an approved manner so as to avoid excessive erosion, sedi-

mentation and storm run-off. The Superintendent may require this work to be done in accord with specifications of a registered landscape architect, an experienced nurseryman or other person qualified in this field.

SECTION 406. TRANSPORTATION OF MATERIAL.

1. Approval of Department of Public Works and Safety. The proposed use of public streets or thoroughfares for the transportation of material for disposal or fill purposes shall have the approvals of the Department of Public Works and the Department of Public Safety.
2. Size and Type of Vehicles and Hours of Operation. The size and type of vehicles used, and the hours of operation shall be as approved by said Department of Public Works and Department of Public Safety, as related to the capacity of streets to be used and traffic volumes thereon.
3. Wheel and Truck Cleaners. Wheel and truck cleaners shall be required on site at any transport origin and destination point within the City, and all vehicles shall be scraped and cleaned before leaving the site.
4. Protection of Property During Transporting. The transporter shall take reasonable measures including but not limited to, wetting down or other treatment before leaving the site, to insure that during transit, no material being transported shall blow or spill over upon public or private property.
5. Street Cleaning. In the event that earth, dust, powder, mud, sludge or any other debris from the operation involved in the permit accumulates in or on any street, catch basin or sewer line, the transporter shall be required to remove same immediately upon notification by the City.

SECTION 407. SLOPE LOCATION RELATED TO BUILDINGS. Cut or fill slopes with an inclination of two (2) horizontal to one (1) vertical or steeper

shall not be used for building construction unless authorized by the Superintendent. The toe of such cut or fill slopes shall be located clear of buildings, such distances as may be required for safety reasons by the Superintendent, depending upon each particular situation and condition.

ARTICLE V LAND RECLAMATION PROJECT

SECTION 501. APPLICATION. An owner or lessee (holding under a recorded lease, the unexpired term of which is more than five (5) years from the date of filing of the application) may, in filing for a required land operations permit, choose to undertake or conduct a land reclamation project, as defined by this ordinance. In such instance the application shall contain such additional information as may be deemed necessary by the Superintendent, to describe properly the nature and extent of the operation and the program. Other requirements of this ordinance shall apply, but the Superintendent shall recognize that the special nature and scope of the operation, the self-imposed protective methods and devices, and the provisions of other applicable regulatory laws may warrant different considerations, and shall take this into account when applying the standards, and when waiving submission of data under Section 302.

SECTION 502. OPERATIONAL REQUIREMENTS. In addition to complying with other applicable requirements of this ordinance, and other applicable requirements of any governmental agency, the operation shall be conducted in such a manner as to provide reasonable protection to surrounding properties and uses, against detriment from emission of odor, dust, smoke, noise, gas, fumes, cinders, vibration, refuse matter, water-carried waste and the like.

In connection with the proposed operation, the Superintendent may require the installation, operation and maintenance of such methods and devices as may, in his opinion, be reasonably required to prevent or reduce such emissions, and may impose such conditions regarding the extent of open space between any portions of the proposed operation involving such emissions, as will

tend to prevent or reduce injury to surrounding property and neighborhood which might result from the proposed operation.

The Superintendent shall also limit the extent and hours of any operation depending upon the specific site of such operation and its relation to surrounding properties and structures, so as to provide a reasonable degree of protection, and shall prohibit such operation at a particular location, if in his opinion it would be unsafe or dangerous to surroundings.

Undrained pools resulting from surface drainage shall be sprayed in accordance with specifications of local public health authorities to eliminate breeding places for mosquitoes and other insects.

Off-street parking areas adequate for all employees, vehicles and trucks shall be provided.

SECTION 503. DEVELOPMENT PROGRAM. The application shall include a program and illustrative plan for development of the subject property which shall consist of two (2) phases: the exploitation phase and the re-use phase, as well as an annual stage development schedule.

1. **Exploitation phase.** The plan for the exploitation phase shall show the proposed development as planned in relation to surrounding properties within three hundred feet, and shall include topographic and geological surveys and other materials indicating existing conditions (including drainage) and the conditions (including topography, drainage and soils) which shall exist at the end of the exploitation phase. Contour intervals (based on U. S. Geological Survey Datum) shall be five (5) feet in areas where gradient is greater than ten (10) percent, and two (2) feet in areas where gradient is ten (10) percent or less.

The program for the exploitation phase shall demonstrate the feasibility of the operation without creating hazard or causing damage to other properties. This program shall also indicate the different

stages of exploitation, where and how traffic on and from the development will be handled, where equipment will be operating, the location and dimensions of structures, the manner in which safeguards will be provided, including those for preventing access by children and other unauthorized persons to dangerous areas. The final stage of the program shall indicate how the project is to be finished in accord with the plan for re-use.

2. **Re-Use Phase.** The program for the re-use phase shall indicate how the property is to be left in a form suitable for re-use for purposes permissible in the Zoning District in which it is located, or in any Zoning District to be established by contemplated re-zoning, so as to relate such re-uses to uses existing, proposed, or intended for surrounding properties. Among items to be included in such program are feasible circulation patterns in and around the site, the treatment of exposed soil or subsoil (including measures to be taken to replace topsoil or establish vegetation in worked-over areas in order to make the property suitable for the re-use, and treatment of slopes to prevent erosion).
3. **Annual Stage Development Schedule.** The applicant shall submit an initial schedule delineating the scope and extent of the operation, the estimated time for completion, and the portion to be accomplished during the first year of the program; and annually thereafter the applicant shall submit such a schedule projecting the intended accomplishment for at least one (1) year ahead. Any change in schedule, or foreseeable or anticipated delays shall be reported promptly to the Superintendent with reasons therefor, and a proper adjustment in plans shall be made. Unforeseeable delays or departures from schedule shall be justified to the satisfaction of the Superintendent. Major departures from schedule shall be considered as changes in plans, and shall render the entire application subject to

review and approval by the Superintendent.

SECTION 504. REFERRAL TO ZONING ADMINISTRATOR. The program and illustrative plans for development of the site shall be referred to the Zoning Administrator of the Department of City Planning for report and recommendation as to relationship of the development to zoning and other planning aspects.

SECTION 505. PERMITS AND CERTIFICATES OF COMPLETION. Permits and Certificates of completion shall be issued in accord with the provisions of Article IV except that an annual permit fee shall be required, as provided for in Article VII.

ARTICLE VI

BONDS AND INSURANCE

SECTION 601. PERFORMANCE BOND. Except where clearly demonstrated by the applicant to the satisfaction of the Superintendent that the operation if left incomplete will not create a hazard to human life or endanger adjoining property at a higher or lower level or any street or street improvement or any other public property, the applicant shall file with the Superintendent prior to the issuance of the permit a performance bond for the benefit of the City of Pittsburgh. As in the application for a Land Reclamation project, the Superintendent shall recognize that the special nature and extent of such operation, the self-imposed protective methods and devices and the provisions of other applicable regulatory laws may warrant different considerations, and shall take this into account when reviewing the performance bond needs for a Land Reclamation Project. Governmental agencies shall be exempted from the requirement of filing a bond unless the Superintendent finds that a bond is required for adequate protection of the public.

1. **Execution.** All bonds shall be executed by the owner of the property where the work is to be undertaken and by a corporate surety insurer authorized to do business in this Commonwealth as surety, or, in lieu thereof, the bond shall be in writing accompanied by a deposit of cash in the amount of the bond.

2. **Conditions.** Every bond shall be conditioned upon compliance with all the provisions of this ordinance and all other applicable laws and ordinances, compliance with all the terms and conditions of the permit, and completion of all work contemplated under the permit within the time limit specified in the permit. The Superintendent may, for sufficient cause, extend the time limit specified in the permit, but no such extension shall release the surety upon the bond.

3. **Term.** The term of each bond shall begin upon the date of filing and shall remain in effect until one (1) year from the date of the issuance of the completion certificate by the Superintendent. In the case of a cash deposit, said deposit or any unused portion thereof shall be refunded one (1) year after said date of issuance of the completion certificate.

4. **Coverage for Completion of Work and Compliance with Permit.** In the event of failure to complete the work or comply with all the terms and conditions of the permit, the Superintendent may order the work or part thereof to be completed as required by the permit. The surety executing bond, or the person giving such deposit, shall continue to be firmly bound under a continuing obligation for the payment of all necessary costs and expenses that may be incurred or expended by the City in causing any and all such required work to be done, and the surety or the depositor shall be considered to assent to any lawful extensions of time within which to construct and complete such work.

5. **Amount.** The amount of bond shall be based in part upon the quantity of material handled and also include an additional amount equal to the cost estimated by the Superintendent, of all construction work, drainage (both surface and subsurface) or other protective devices, removal or replacement of trees or other natural ground cover which may be required. That portion of the bond valuation based upon the cost of handling material

shall be computed as set forth in the following table:

10,000 cubic yards or less—
\$1.00 per cubic yard.

10,000 to and including 100,000 cubic yards—

\$10,000.00 plus 50 cents for each additional cubic yard or fraction thereof in excess of 10,000.

Over 100,000 cubic yards—

\$55,000.00 plus 20 cents for each additional cubic yard or fraction thereof in excess of 100,000.

6. Proportionate Reduction as Work is Completed. When a substantial portion of the required work has been completed to the satisfaction of the Superintendent, and the completion of the remaining work is delayed due to conditions beyond the control of the owner or the contractor, the Superintendent may in his discretion accept the completed portion of the work and consent to an appropriate reduction of the bond to an amount estimated to be adequate to insure completion of the work remaining to be performed. In no case shall the reduction be greater than an amount equal to fifty (50) percent of the original bond.

SECTION 602. LIABILITY INSURANCE. The applicant shall furnish to the Superintendent together with the application for a permit a certificate showing standard form public liability insurance against claims for damages for personal injury as well as claims for property damage (including damage to city streets or other public improvements by blowing, drifting, washing, sliding, flowing subsurface water, or otherwise depositing of matter) which may arise from or out of performance of the work whether such performance be by himself, his contractor or sub-contractor or any person directly or indirectly employed by him. Said insurance shall include protection against liability arising from completed operations. Said insurance shall be written by a company approved by the Superintendent and shall insure the City, its offi-

cers, agents and employees against any loss or liability which may arise during the performance of, or which may result from any work herein required to be performed.

SECTION 603. ENTRY UPON PREMISES. Any authorized representative of the City or the surety shall have access to the premises described in the permit for the purpose of inspecting the progress of the work.

In the event of default in the performance of any term or condition of the permit, the surety, or any person employed or engaged in its behalf, or the City or any person employed or engaged in its behalf, shall have the right to go upon the premises to complete the required work.

It shall be unlawful for the owner or any other person to interfere with the authorized entry of any person upon the premises under the provisions of this section.

ARTICLE VII

FEES

In addition to any fees payable under the Zoning Ordinance, Subdivision Regulations, Building Code or other regulations, a permit shall be paid pursuant to this ordinance based upon quantity of material handled or land area involved for each job site, even though the same material may be handled in more than one (1) type of operation. The amount of fee shall be in accordance with the following table:

1. Land Reclamation Project—

\$100.00 per year or fraction thereof.

2. Transportation of Material Over City Streets When not involving Site—

\$10.00.

3. Other Than Included in 1 or 2 above—

A. Minimum—\$15.00.

B. Additional When Quantity of Material Handled Exceeds 5,000 Cubic Yards, or Where Land Area Exceeds 10,000 Square Feet—

\$1.00 for each additional 1,000

cubic yards or fraction thereof, or \$1,000 for each additional 10,000 square feet or fraction thereof, whichever results in the greater amount.

4. Double Fee. Should any person, firm or corporation actually begin any work for which a permit is required by this ordinance without securing a permit therefor, there shall be paid, in addition to the fees above described and provided, an additional amount equal to one hundred (100) percent of the fees above prescribed. Such additional payment is deemed necessary as compensation for additional inspection and processing due to work started or completed without permit, and shall not be construed as waiving any of the penalty provisions of this ordinance.

Governmental agencies (federal, state or local) including public authorities and the Board of Public Education, although required to obtain a permit, shall not be required to pay a fee under this ordinance.

ARTICLE VIII

APPEALS

Any decision of the Superintendent relating to the administration or enforcement of this ordinance may be appealed to the Board of Standards and Appeals established pursuant to the Building Code, Ordinance No. 300, approved August 6, 1947. Each appeal shall be accompanied by a deposit of Ten Dollars (\$10.00) payable to the City Treasurer. If the appeal is granted, the deposit shall be returned to the Appellant; if denied, it shall be retained by the City.

ARTICLE IX

ENFORCEMENT AND PENALTY

SECTION 901. ENFORCEMENT. It shall be the duty of the Superintendent to enforce this ordinance. He shall, on his own initiative or on complaint, proceed to the remedy of violations. The provisions of this ordinance shall supersede any permit or business license in conflict herewith; and in issuing permits, all departments, officers and em-

ployees of the City of Pittsburgh shall take cognizance of the provisions of this ordinance.

Any permit or certificate issued by the Superintendent under the terms of this ordinance shall be revocable should any of the conditions under which it is issued not be complied with. In the event of failure to comply with and order issued pursuant to any section of this ordinance, the Superintendent or any City employee delegated by the Superintendent to act for him, may institute appropriate actions or proceedings at law or in equity to restrain, correct or abate the violation of the order, or he may cause the order to be carried out at the expense of the City. The City may recover the amount of expense by action of assumpsit, or where appropriate, in the manner provided by law for the collection of municipal claims under the Act of May 16, 1923, P.L. 207, or any amendments or reenactments thereof.

SECTION 902. PENALTY. Any person, firm or corporation violating any of the provisions of this ordinance shall, upon conviction thereof before any alderman or magistrate of the City of Pittsburgh, be subject to a fine not exceeding five hundred dollars (\$500.00) and costs for any one (1) offense, and in default of payment of said fine and costs shall be subject to imprisonment in the County Jail or Workhouse for a period not exceeding ninety (90) days, or both. Each day's violation shall constitute a separate offense. In the case of firms or associations, the penalty may be imposed upon the partners or members thereof, and in the case of corporations, upon the officers thereof.

SECTION 903. APPLICATION TO EXISTING LAND OPERATIONS. Any land operation existing upon the effective date of this ordinance shall not be subject to the provisions of Section 901 and Section 902 for failure to have obtained a permit, as required by this ordinance, provided that the Initial Submission required by Section 302-1-A in applying for permits shall be submitted to the Superintendent of the Bureau of Building Inspection within three months from the effective date of this ordinance.

THIS AGREEMENT, made as of the 1st day of April, 1969, by and between THE BALTIMORE AND OHIO RAILROAD COMPANY, first party, hereinafter called "Railroad", and CITY OF PITTSBURGH, PENNSYLVANIA, a municipal corporation of the Commonwealth of Pennsylvania, second party, hereinafter called "Utility";

WITNESSETH:

WHEREAS, Utility desires to construct, maintain and use one (1) 2-inch galvanized conduit containing two (2) 120/240 volt wire (all of which, including appurtenances and changes herein provided for, are hereinafter referred to as "facilities"), across and over or under, as the case may be, the tracks, right-of-way and property owned, controlled or operated by Railroad at Station 8089+42, V. S. 95.1 (S5a), Etna, Pennsylvania as indicated in yellow on Utility's plan marked Exhibit "A" and dated September 18, 1968, attached hereto and made a part herof.

NOW, THEREFORE, in consideration of the premises, the promises and agreements herein contained, and the sum of One Dollar (\$1.00) paid by each to

the other the receipt whereof is respectively acknowledged, the parties hereto agree as follows:

FIRST: Railroad, in so far as it has the power and authority so to do and subject to compliance with the terms and conditions hereinafter contained to be kept and performed by Utility hereby permits Utility to construct, maintain and use said facilities across the tracks, right-of-way and property of Railroad at said location.

Utility, at its expense, will furnish all materials and, at a time satisfactory to Railroad, construct, maintain, use, change and remove said facilities or any part thereof in accordance with the design and specifications shown on said plan and as in this agreement provided, all in a prudent and workmanlike manner, in conformity with any applicable statutes, orders, rules, regulations and specifications of any public body having jurisdiction thereof, and so as not to interfere with or endanger, in the judgment of Railroad, any property, traffic, operations, maintenance, employes or patrons of Railroad, or of others occupying or using its property at said location.

SECOND: Utility will give Railroad at least 5 days notice before doing any work of any character hereunder at said location except that in cases of emergency demanding immediate examination or repairs Utility may give shorter notice. If, at any time, said facilities, or any part thereof, in the judgment of Railroad, cause any interference or danger referred to in Section FIRST hereof that is emergent, Utility upon notice from Railroad, will promptly take remedial action in accordance with such notice, and upon failure so to do Railroad, at Utility's expense, may take such action. In any non-emergency case of such interference or danger Utility, within 30 days after receipt of notice from Railroad, will take remedial action in accordance with such notice, and upon failure so to do Railroad, at Utility's expense, may take such action.

If Railroad deems it advisable during the progress of any work of construction, maintenance, repair, renewal, alteration, adjustment, or removal of said facilities of Utility to place watchmen, flagmen, inspectors or supervisors for the

protection of the operations of Railroad or property of Railroad or others on Railroad's right-of-way at said location, Railroad shall have the right so to do at the expense of Utility, but Railroad shall not be liable for the failure so to do or the failure or neglect of such watchmen, flagmen, inspectors or supervisors, and such failure or neglect shall not be construed as negligence of Railroad within the meaning of Section EIGHTH hereof.

THIRD: During any work of any character hereunder at said location, Utility, at its expense, will support the tracks and roadbed of Railroad in such manner as shall be necessary in the judgment of Railroad to prevent any interference or danger referred to in Section FIRST hereof, and upon the completion of said work will restore said tracks, roadbed and other property to their original condition, provided that Railroad, at its option and at the expense of Utility, may do all the work of supporting its tracks and roadbed and of restoring the same.

FOURTH: Upon written request by Railroad, Utility, at its expense and within 30 days thereafter, will change the location or construction of said facilities or any part thereof, temporarily or permanently, in a manner satisfactory to Railroad, to accommodate (i) the maintenance, use, or operation of any appliances or facilities or property of Railroad, or others occupying its property, or (ii) any construction, or improvement, or change in the operations or property of Railroad or others occupying its property that may be deemed necessary or advisable by Railroad to permit and enable it to have and exercise free use and occupation to the extent of the full width of its right-of-way and property at the location aforesaid. If Utility fails to make such change, Railroad may make the same at the expense of Utility. If Utility desires to revise, renew, relocate, or change in any manner whatsoever all or any of said facilities (including any change of voltage or operating pressure), of if Utility is required to permanently change or alter the same, plans therefore shall be submitted to and approved by Railroad before any such change is made, and the terms and conditions of this agreement shall apply thereto.

FIFTH: Upon cessation of the use as herein contemplated of said facilities, or any part thereof, Utility will notify Railroad thereof and, unless the parties otherwise then agree, Utility will remove the same and restore Railroad's affected premises in a manner satisfactory to Railroad. If Utility fails so to remove and restore within 30 days of written notice from Railroad so to do, Railroad may do such work at the expense of Utility.

SIXTH: Upon execution of this agreement Utility will pay to Railroad for the preparing of this agreement the sum of TWENTY-FIVE DOLLARS (\$25.00), and also the annual sum of TEN DOLLARS (\$10.00), and will pay a like annual sum on each anniversary of this agreement thereafter until terminated. Utility will pay all taxes assessed upon said facilities, or on account of their existence, and shall indemnify Railroad against the payment thereof.

SEVENTH: If Utility fails to make the payments provided for herein or shall fail to perform any of the other terms or conditions of this agreement, and shall fail to remedy any such breach in accordance with the requirements of written notice of Railroad so to do, then and in that event Railroad may at its option forthwith terminate the permission herein granted. Upon such termination Utility, at its expense, will promptly remove such facilities and restore the premises to their original condition, and if Utility fails so to do, Railroad may do such work at the expense of Utility.

EIGHTH: (a) Utility hereby assumes, and releases and waives any right to ask or demand damages for on account of any loss of or damage to property of Utility or any part thereof, at said location, including loss of or interference with service thereof, whether caused by the fault, failure or negligence of Railroad, or otherwise.

(b) Utility hereby assumes, and releases and agrees to indemnify, protect and Save Railroad harmless from and against, (i) all loss of damage to any property whatsoever (other than said property of Utility, but including property of Railroad and of all other persons whomsoever and the loss of or interfer-

ence with any use of service thereof) and, (ii) all loss and damage on account of injury or to death of any person whomsoever (including employees and patrons of the parties hereto and all other persons whomsoever), and (iii) all claims and liability for such loss and damage and cost and expenses thereof, caused by or growing out of the operation of this agreement or the presence, construction, maintenance, use, repair, change or relocation and subsequent removal of said facilities or any part thereof, when not solely caused by the fault, failure or negligence of Railroad. If any such loss or damage shall be caused by the joint or concurring negligence of both parties hereto the same shall be borne by them equally.

NINTH: The term "Railroad" as used in Section EIGHTH hereof shall include any company whose tracks, right of way, or other property may be leased or operated by Railroad or any other company at the aforesaid location.

TENTH: Railroad's expense for any work performed by it at the expense of Utility pursuant to the terms hereof will be paid by Utility upon receipt of a bill therefor. Such expense shall include, but not to be limited to cost of labor and materials, cost of supervision, traveling expenses, Federal Railroad Retirement and Unemployment Taxes, vacation allowances, and freight and handling charges on all material used.

ELEVENTH: All notices and communications concerning this agreement shall be addressed to Utility at Pittsburgh, Pennsylvania, and to Railroad's Division Superintendent at Pittsburgh, Pennsylvania, or at such other addresses as either party may designate in written notice to the other.

TWELFTH: Any approval given or supervision exercised by Railroad hereunder, or failure of Railroad to object to any work done, material used or method of construction or maintenance of said facilities, shall not be construed as an admission of responsibility by Railroad or as a waiver of any of the obligations of Utility under this agreement.

THIRTEENTH: Any waiver by either party at any time of any of its rights as to anything herein contained shall

not be deemed to be a waiver of any breach or covenant or other matter subsequently occurring.

FOURTEENTH: This agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns, but no assignment thereof or of any rights or obligations thereunder shall be valid for any purpose without the consent in writing of Railroad.

FIFTEENTH: Utility covenants and agrees not to assess or charge Railroad, or the property of Railroad, directly or indirectly, for or on account of the improvement of which said facilities are a part.

SIXTEENTH: This agreement shall take effect at the expiration of thirty (30) (30) days from the date when a copy thereof shall be filed in the office of the Pennsylvania Public Utility Commission, Harrisburg, Pennsylvania; provided, that if said Commission shall, prior to the expiration of such period, institute a proceeding affecting its validity under the provisions of Section 911, Article IX of the Public Utility Law, this contract shall become effective only upon the approval thereof by the said Commission.

IN WITNESS WHEREOF, the parties hereto have executed this agreement in triplicate as of the day and years first above written.

(herein called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny,

ALLEGHENY COUNTY SANITARY AUTHORITY

(herein called the "Sanitary Author-

ity"), a municipal authority of the Commonwealth of Pennsylvania, and

UNITED STATES STEEL CORPORATION (herein called the "Company"), a corporation created and existing under the laws of the State of Delaware, having an office in the City of Pittsburgh,

WITNESSETH:

WHEREAS, the Company owns and operates a waterfront plant in Neville Township, Allegheny County, Pennsylvania, which Township is located on an island in the Ohio River; and

WHEREAS, such waterfront companies are required by the Sanitary Water Board of the Commonwealth of Pennsylvania acting under the laws of the Commonwealth to treat their sewage and wastes and are not permitted to discharge untreated sewage or wastes into the streams of the Commonwealth; and

WHEREAS, under the provisions of long-term municipal and industrial agreements, the Sanitary Authority is providing, by means of its Sewage Disposal System, sewage collection, transportation, treatment and disposal service (herein called "Sewage Service") to homes and plants in seventy-three municipalities including the City of Pittsburgh, and one of the Sanitary Authority's intercepting sewers is located along the left bank of the Ohio River across the back channel opposite the Company's plant on Neville Island; and

WHEREAS, although the Company discharges its sanitary sewage to the sewer system of Neville Township, which in turn pumps its sanitary wastes to the Sewage Disposal System under an agreement with the Sanitary Authority, the Township's sewers cannot accommodate industrial wastes, and the Company has no industrial waste treatment plant; and

WHEREAS, the Company deems it economical and otherwise advantageous to have the acceptable industrial wastes of its plant treated and disposed of by said Sewage Disposal System pursuant to the terms of this Agreement, rather than to build and operate suitable treatment and disposal facilities of its own; and

WHEREAS, it is more economical to have a direct connection to the Sanitary Authority's Ohio River intercepting sewer than to construct a treatment plant to treat these industrial wastes.

NOW, THEREFORE, in consideration of the premises and the undertakings of each party to the others, the parties hereto, each intending to legally bind itself, its successors and its assigns, covenant and agree as follows:

1. The standard form of long-term agreement by and among the City, the Sanitary Authority and each of the numerous other municipalities served by the Sewage Disposal System (sometimes hereinafter referred to as the "Municipal Agreement") consisting of 27 pages and a map marked Exhibit A, of which a copy has been submitted to the Company, is incorporated herein and made a part of this Agreement by reference thereto. The Township of Neville's Municipal Agreement, however, is limited to sanitary sewage. Except as otherwise provided herein, all relevant provisions of said Municipal Agreement shall be binding upon the parties hereto, the Company hereby acquiring all the rights and becoming subject to all the obligations of the party referred to therein as the "Borough" or the "Township". The terms "Sewage Disposal System" and "State Board" shall have the same meanings herein as those given them in the said Municipal Agreement, and the term "Sewage Agency" therein shall mean Allegheny County Sanitary Authority, one of the parties hereto.

2. The Company hereby designates, engages and appoints the Sanitary Authority (which the City has designated to be the Sewage Agency under the several Municipal Agreements) as the sole and exclusive agency, during the entire life of this Agreement, to provide (subject to the provisions hereinafter contained) industrial waste collection, treatment and disposal service to the plants, buildings and other premises situated on the Southern end of Neville Island in Neville Township owned or occupied by the Company at the present time and to the Company's future plants, and buildings on the same premises and on premises adjacent thereto (all of which are hereinafter referred to as "the plants, buildings and premises covered by this Agreement").

The Company agrees that during such period it will not itself provide such treatment and disposal service, except for the pre-treatment of such wastes as shall acquire pre-treatment and except for the treatment and disposal of wastes and other materials which must be excluded from the Sewage Disposal System.

3. Subject to the provisions of Paragraphs 4, 5 and 6 of this Agreement, the Sanitary Authority will accept into its intercepting sewer all the acceptable industrial wastes of the Company's plants, buildings and premises covered by this Agreement, transport such wastes to its treatment plant and provide such treatment and disposal thereof as may be required by law; provided, however, that the Sanitary Authority shall have the right to refuse to accept for treatment and disposal by the Sewage Disposal System the wastes of any future plant, building or premises of the Company if in the judgment of the Sanitary Authority the quantity of such wastes would overload its intercepting sewer.

The Company shall provide for the separation of acceptable industrial wastes from storm or surface drainage. Only sewers carrying acceptable industrial wastes shall be connected directly or indirectly with the Sewage Disposal System, and the Company shall not permit the discharge thereinto of storm or surface water, unacceptable industrial wastes, any surface or sub-surface stream, or the acid drainage of a coal mine. If any such condition, exists or occurs, and if the Company does not promptly exclude or divert the unacceptable matter of flow, the Sanitary Authority shall have the right to disconnect the Company's offending sewer at the expense of the Company, and shall not be liable therefor in any way to the Company.

The Sanitary Authority reserves the right, upon reasonable written notice to the Company, to terminate this agreement in the event the Company's wastes become unacceptable for interception, treatment and disposal by the Authority's disposal system.

The Company reserves the right, upon reasonable written notice to the Sanitary Authority, to terminate this agree-

ment as to such wastes as the Authority can not accept or as to any or all other wastes of the Company, and to treat and dispose of such wastes with its own waste treatment facilities in accordance with the requirement of law.

4. For the collection, treatment and disposal service provided by the Sanitary Authority, the Company covenants to pay promptly to the Sanitary Authority the Sanitary Authority's established sewage service charges. Such charges shall be based upon

- (a) the quantity of water, from whatever source, used in or on the plants, buildings, and premises of the Company (less quantity credits provided for in Paragraph 12 of the Municipal Agreement) and
- (b) the character—as to suspended solids, biochemical oxygen demand, chlorine demand, etc.—by the sewage and industrial wastes discharged into any sewer connected directly or indirectly with the Sewage Disposal System,

in accordance with a uniform schedule of charges applicable throughout the main service area of the Sewage Disposal System, and billed monthly, quarterly, semi-annually or annually, at the option of the Sanitary Authority.

It shall be the obligation of the Company to install and maintain in good operating condition meters or other measuring devices approved by the Sanitary Authority for measuring the quantity of such water, and the Company shall permit the Sanitary Authority or its designee to read such meters or other measuring devices periodically. If for any reason the Sanitary Authority shall not obtain such quantity for any billing period, it shall have the right to estimate the same and to use such estimated quantity in computing its charges.

In order to determine the character of the industrial wastes discharged into the Sewage Disposal System, for the purpose of computing its charges and also for the purpose of excluding unacceptable wastes and materials, the Sanitary Authority shall have the right to inspect the Company's plants, buildings

and premises, and to take samples of the wastes discharged therefrom.

5. The Sanitary Authority shall have the right to designate a list of unacceptable wastes (e.g., specified oils, acids, toxic wastes, etc.) which in its opinion may be harmful to its sewers, pumping stations or other structures or may interfere with the sewage treatment processes at its plant, and to change such list from time to time. The Company shall receive due notice of such unacceptable wastes. The Company agrees to so operate its plant, buildings and premises, and to provide and properly operate such pre-treatment or other facilities to be specified and approved by the Sanitary Authority, subject to the approval of the State Board, as will assure the exclusion of all such unacceptable wastes from all sewers connected directly or indirectly with the Sewage Disposal System.

6. It shall be the obligation of the Company to bring its acceptable industrial wastes to the Sanitary Authority's manhole at Station 67+68 of the Contract 29 15" intercepting sewer located in Stowe Township near the Southern end of the Fleming Park Bridge. This direct connection to the Sanitary Authority's intercepting sewer shall be made in such manner as the Sanitary Authority may direct and at the sole cost and expense of the Company. The Company shall also provide satisfactory means of inspecting and sampling the Company's wastes before discharge to the Sanitary Authority's facilities.

7. This Agreement shall become effective immediately and, unless terminated as provided in Paragraph 3 of this Agreement, shall remain in full force and effect, subject to the provisions of Paragraph 2 and 3 of the Municipal Agreement, until the date of expiration of the legal existence of the Sanitary Authority or until the expiration of one calendar year following the payment in full or all bonds, notes and other obligations of the Sanitary Authority, original and refunding, issued by it to finance the construction, replacement, maintenance and operation of the Sewage Disposal System and additions thereto, whichever date shall be later.

Section 4210 Emergency Power Requirements. Delete all subject matter in Section 4210 and substitute the following:

Grades of Emergency Power

There shall be three classifications or grades of emergency sources: System I, II, and III.

In occupancies classified in System III, Systems I or II may be used. In occupan-

cies classified under System II, System I may be used.

Under Systems I and II in the downtown Pittsburgh area outlined in the attached map of this area the Auxiliary Source described below may be an additional service connected to the power company's underground low voltage network.

System I

A. System I shall require three (3) sources of supply: Normal Source, Auxiliary Source and Reserved Source.

B. Two Transfer Switches are required; one to transfer from Normal to Auxiliary Source and the second to transfer to Reserve Source when Normal and Auxiliary sources fail.

C. An Auxiliary service qualifies as such when the following conditions are met.

1. When Normal Sources is an isolated plant, the auxiliary shall be from an approved overhead or underground supply.

2. When the source of supply is from a separate service pole, with a separate service drop and widely separated from the normal service.

3. When connected to a separate power service through separate transformers within the building.

4. When light and power are connected to an underground network, auxiliary service may be connected to the line side of the general lighting service switch.

D. Reserve Source of power may be either storage batteries with necessary chargers and control or an engine driven generator set.

1. The engine drive source shall have 24 hour supervision and shall be tested weekly and recorded in a log which shall be checked at intervals by the Bureau of Electrical Inspection. The operation of the set shall be completely automatic and

shall start and come up to speed and come on the line within 15 seconds after a failure of the Auxiliary Source of supply.

2. Alternate System — Reserve source for existing buildings may be self-contained battery-operator units with rectifier in single enclosure located in specified locations throughout the building.

System II

System II shall require a normal source and an auxiliary source only, and an automatic transfer switch and the necessary wiring to provide a complete separate wiring system for exit signs, emergency lighting and alarms. Separate branch circuits will be provided and must be run in separate raceways.

System III

System III shall require two separate underground services; one for general lights and the other to supply current for the exit signs, emergency lights and alarms. Where separate underground services cannot be obtained, the Auxiliary service may be taken from the line side of the general lighting switch. For overhead supply, there shall be provided a separate service to the outside of the building but may be connected to the same service drop feeding the general lights.

From the source of supply, the exit signs, emergency lighting and alarms shall be a completely separate service through independent service conduit, meter service switch and wiring. Branch circuits may be in the same conduit but on separate branch circuits.

An alternate auxiliary service shall consist of battery powered self-contained emergency floodlighting units.

System 3's require a normal source and a reserve source only. Reserved can be either an engine driven generator set, or ordinance system consisting of self-contained battery operated units with rectifier in single enclosure located at specified locations throughout the building.

Additional Recommendations

1. In general, motor loads should not be placed on Emergency Lighting Systems. However, if it is desirous to have a standby source available for elevator drives, essential heating plant auxiliaries, temperature control systems, appliances essential to care of serious illnesses, critical

refrigeration units or other essential loads, then a separate standby generator driven by a proper prime mover shall be provided.

2. General medical hospitals shall comply with National Fire Protection Association (NFPA) Standard No. 76 entitled "Essential Hospital Electrical Service."

No. 657

AN ORDINANCE — Authorizing an amendment to an Agreement dated as of July 1, 1965 between the Stadium Authority of the City of Pittsburgh and the City of Pittsburgh, entered into pursuant to Ordinance No. 246, approved June 29, 1965, as amended as of April 1, 1968, pursuant to Ordinance No. 193, approved April 23, 1968, to authorize the Stadium Authority of the City of Pittsburgh to incur additional indebtedness and to extend existing indebtedness of

the Authority, and approving the form and content of a Letter Agreement dated December 8, 1969 between Stadium Authority of the City of Pittsburgh, on the one hand, and Three Rivers Management Corporation, Pittsburgh Athletic Company, Inc. and Pittsburgh Steelers Sports, Inc., on the other hand.

WHEREAS, the Stadium Authority of the City of Pittsburgh (Authority) and the City of Pittsburgh (City) entered into an Agreement dated as of July 1, 1965, pursuant to Ordinance No. 246, approved June 29, 1965, for the purpose of enabling the Authority to undertake the construction of a public stadium and facilities necessary or incidental thereto (hereinafter called the Project); and

WHEREAS, by Ordinance No. 313, approved July 7, 1966, the form and content of leases and subleases and a related Agreement for the use of the public stadium were approved; and the Authority was authorized to borrow, if necessary, additional funds not to exceed \$1,200,000 for the construction of a master score board system and certain other facilities for the Project, upon terms and conditions set forth in said Ordinance; and the Authority was authorized to acquire fee simple title rather than a lease-hold interest to the site to be used by the Public Stadium and related facilities; and

WHEREAS, at the time the Agreement dated as of July 1, 1965 between the Authority and the City was entered into, it was believed that the cost of Project would not exceed the sum of \$28,000,000, which sum the Authority borrowed from certain banks (hereinafter called the Banks) under a Loan Agreement dated as of June 23, 1965 and amended as of September 21, 1966 and January 15, 1969; and

WHEREAS, by Ordinance No. 30, approved February 26, 1968, final plans and specifications for construction of the Stadium by the Authority were approved; and

WHEREAS, by Ordinance No. 193, approved April 23, 1968, the form and content of amendments to leases and subleases and a related Agreement for the use of the Public Stadium were approved; and an amendment to the

Agreement, dated as of July 1, 1965, between the Authority and the City, to authorize the Authority to borrow additional funds in an amount not to exceed \$4,000,000 in accordance with the terms of a Commitment Letter on behalf of the Banks for payment of additional estimated costs of construction of the Project was approved, inasmuch as the reasonably anticipated rentals under the various leases and subleases for the use of the Project were expected to exceed the minimum annual rentals to the extent that the Authority would have sufficient funds available to pay the estimated annual cost to the Authority of the operation and maintenance of the Project and of debt service on Bonds of the Authority to be issued to repay the initial borrowing of \$28,000,000 and additional borrowing, not to exceed \$4,000,000; and

WHEREAS, contracts for the construction of the Project were entered into on the basis of the aforesaid Ordinances and the Project is now under construction; and

WHEREAS, by Resolution No. 2, approved January 15, 1969, the City approved a Second Amendment to Loan Agreement dated as of January 15, 1969, between the Authority and the Banks, increasing the aggregate principal amount of the loans made thereunder to \$32,000,000 and providing for the repayment of said principal amount on January 15, 1971; and

WHEREAS, due to various unforeseen and unavoidable factors and events since the beginning of construction, including additional costs required to be paid to contractors on account of changes in the design of the Stadium to provide for additional patron safety and comfort, additional costs incurred on account of labor disputes and work stoppages, and increased cost of materials and labor, it now appears that the total cost of construction of the Project and other costs and expenses of the Authority may exceed the sum of \$32,000,000 by an amount not to exceed \$3,000,000; and

WHEREAS, the City desires that the Authority proceed with the completion of the Project and the Authority desires to proceed with the completion of

the Project on the basis of present and estimated additional costs and expenses in an aggregate amount not to exceed \$35,000,000, and

WHEREAS, it now appears that the reasonably anticipated Stadium Bond Service Charges revenues, provided in Letter Agreement dated December 8, 1969 between Stadium Authority of the City of Pittsburgh, on the one hand, and Three Rivers Management Corporation, Pittsburgh Athletic Company, Inc. and Pittsburgh Steelers Sports, Inc., on the other hand, together with reasonably anticipated rentals under leases between the Authority and the Pittsburgh Management Corporation (Now Three Rivers Management Corporation) and between the Authority and the Public Parking Authority of Pittsburgh will exceed the annual minimum rentals to the extent that the Authority will have sufficient funds available to pay the estimated annual cost to the Authority of the operation and maintenance of the Project, and to pay the debt service on the Bonds of the Authority to be issued to repay the initial borrowing of \$28,000,000, the additional borrowing of \$4,000,000 and further additional borrowing not to exceed \$3,000,000 to complete payments of the entire cost of construction of the Project and other costs and expenses of the Authority; and

WHEREAS, even if such reasonably anticipated revenues and rentals were not available for such purposes, it is declared to be in the public interest that the construction of the Project be completed forthwith on the basis of the above-mentioned costs and expenses and the undertaking of the City of Pittsburgh to make annual gants, if necessary, in accordance with the Agreement dated as of July 1, 1965, as heretofore amended, between the Authority and the City; and

WHEREAS, in order that the Authority will have sufficient funds to pay the entire estimated costs of construction of the Project and other costs and expenses of the Authority, the City desires that the Authority be authorized to borrow an additional sum or sums, not to exceed \$3,000,000, to apply toward the payment of the cost of construction of the Project and other costs and ex-

penses of the Authority, said borrowing to be either a short-term borrowing, to mature not later than January 15, 1973, or to be part of the issue of Bonds of the Authority, in an aggregate amount not in excess of \$25,000,000, to repay the existing bank loan of \$32,000,000, and to pay the aforementioned additional costs of construction and other costs and expenses of the Authority; and

WHEREAS, due to the aforementioned delays encountered in the construction of the Project, it now appears that there will be a delay in the completion of the Project so that the initial rentals which the Authority will receive will be substantially less than had been anticipated, the City desires to authorize the Authority to apply for an extension of the existing bank loan in the amount of \$32,000,000, for a period of not more than two years, i.e., to mature on or before January 15, 1973.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor and the Director of the Department of Parks and Recreation of the City of Pittsburgh be and they are hereby authorized and directed to enter into an amendment to the Agreement dated as of July 1, 1965, between the Stadium Authority of the City of Pittsburgh and the City of Pittsburgh, as amended as of April 1, 1968, in substantially the following form:

AMENDMENT

Dated as of December 1, 1969

to

ARTICLES OF AGREEMENT

between

STADIUM AUTHORITY OF THE CITY
OF PITTSBURGH

and

CITY OF PITTSBURGH

dated as of July 1, 1965

and

Amendment thereto

dated as of April 1, 1968

AMENDMENT

TO

ARTICLES OF AGREEMENT

This Amendment made as of the 1st day of December in the year One Thousand Nine Hundred Sixty-Nine (1969)

to

Articles of Agreement (hereinafter referred to as the "Agreement") made as of the 1st day of July in the year One Thousand Nine Hundred Sixty-Five (1965) and amendment thereto dated as of the 1st day of April in the year One Thousand Nine Hundred Sixty-Eight (1968)

by and between)

STADIUM AUTHORITY OF THE CITY OF PITTSBURGH (hereinafter called "Authority"), a public body corporate and politic, exercising public powers of the Commonwealth of Pennsylvania as an agency thereof, organized and existing under and by virtue of the Act of the General Assembly of the Commonwealth of Pennsylvania, approved July 29, 1953, P.L. 1034, as heretofore and hereafter amended, party of the first part

and

CITY OF PITTSBURGH (hereinafter called "City"), a political subdivision created and existing under and by virtue of the laws of the Commonwealth of Pennsylvania, party of the second part

Witnesseth:

WHEREAS, the Authority and the City entered into the Agreement for the purpose of enabling the Authority to undertake the construction of a public stadium and facilities necessary or incident thereto (hereinafter called the "Project"); and

WHEREAS, as authorized by the Agreement, the Authority borrowed the sum of Twenty Eight Million Dollars (\$28,000,000) for the construction of the Project from certain banks (hereinafter called the "Banks") under a Loan Agreement dated as of June 23, 1965, as amended as of September 21, 1966, it being estimated at the time of such borrowing that the total cost to the Authority of the construction of the Project would not exceed that sum; and

WHEREAS, at the time that the Agreement between the Authority and

the City was entered into it was believed that the annual minimum rentals which were to be and now are provided for under leases between the Authority and Pittstad Management Corporation (now Three Rivers Management Corporation) and between the Authority and Public Parking Authority of Pittsburgh, would provide sufficient funds for the payment of the estimated annual cost to the Authority of the operation and maintenance of the Project and of debt service on the Bonds of the Authority to be issued to repay the \$28,000,000 borrowed from the Banks; and

WHEREAS, in March of 1968 the Authority received firm, fixed proposals for the construction of the Project in the aggregate amount of Twenty Six Million One Hundred Twenty Two Thousand Dollars (\$26,122,000), which, when added to the estimated cost of certain parts of the Project for which proposals had not then been solicited, the estimated cost of certain alternate and optional equipment, the estimated financing and other charges of the Project, and certain contingency reserves, in an aggregate amount then expected to not exceed Five Million Five Hundred Seventy Eight Thousand Dollars (\$5,578,000), totalled Thirty One Million Seven Hundred Thousand Dollars (\$31,700,000), or Four Million Dollars (\$4,000,000) more than the amount which the Authority then estimated would be available from its initial borrowing of \$28,000,000 to pay for the cost of construction of the Project; and

WHEREAS, in order to enable the Authority to proceed with the construction of the Project on the basis of the firm, fixed proposals above mentioned in the aggregate amount of \$26,122,000, and the estimated additional costs of such construction and related expenses and contingency reserves in an aggregate amount then expected to not exceed \$5,578,000, the Agreement was amended as of April 1, 1968 to authorize, among other things, the obtaining by the Authority of a commitment from the Banks to lend to the Authority an additional sum of \$4,000,000 for the construction of the Project, it appearing at that time that the reasonably anticipated rentals under the leases of the Authority with Pittstad Management Corporation and Public Parking Authority

of Pittsburgh, would exceed the annual minimum rentals to such an extent that the Authority would have sufficient funds available from such rentals to pay the estimated annual cost to the Authority of the operation and maintenance of the Project and of debt service on the Bonds of the Authority to be issued to repay both the \$28,000,000 initial borrowing and any additional borrowing not to exceed \$4,000,000 to complete the payment of the entire estimated cost of construction of the Project; and

WHEREAS, contracts for the construction of the Project were entered into on the basis of the aforementioned proposals in the aggregate amount of \$26,122,000 and on the assumption that the total cost of the Project would not exceed \$31,700,000, and construction of the Project is now in progress; and

WHEREAS, due to various unforeseeable and unavoidable factors, including additional costs required to be paid to contractors on account of changes in the design of the Stadium structure to provide for additional patron safety and comfort, additional costs incurred on account of labor disputes and work stoppages, and increased costs of materials and labor, it now appears that the total cost of construction of the Project will exceed the sum of \$31,700,000 which was estimated at the time contracts for construction of the Project were entered into to be the maximum total cost thereof and

WHEREAS, due to certain unforeseeable cost and unavoidable delays encountered in the construction of the Project, it now appears that there will be some delay in the completion of the Project, with the result that the initial rentals which the Authority will receive will be substantially less than had been anticipated; and

WHEREAS, so that the Authority will have sufficient funds to pay the entire cost of construction of the Project, and to pay other costs and expenses of the Authority, the City desires that the Authority be empowered to borrow, as required, and at such time or times as the Authority may determine, an additional sum or sums in the aggregate not to exceed Three Million Dollars (\$3,-

000,000), for a term not to exceed two years from January 15, 1971, at such interest rate or rates as the Authority and the lender or lenders may agree upon, which rate or rates shall be subject to the approval of City Council by Resolution, and further, that the Authority be empowered to apply to the Banks for an extension for a period not to exceed two years, i.e., not beyond January 15, 1973, of the date for repayment of the sum of \$32,000,000 heretofore borrowed by the Authority pursuant to the Loan Agreement, at such interest rate as may be agreed to by the Authority and the Banks, subject to the approval of City Council by Resolution; and

WHEREAS, it now appears that the reasonably anticipated Stadium Bond Service Charges revenues, as provided in Letter Agreement dated December 8, 1969 between the Authority, on the one hand, and Three Rivers Management Corporation, Pittsburgh Athletic Company, Inc. and Pittsburgh Steelers Sports, Inc., on the other hand, together with the reasonably anticipated rentals under leases between the Authority and Pittstad Management Corporation (now Three Rivers Management Corporation) and between the Authority and the Public Parking Authority of Pittsburgh, will exceed the annual minimum rentals to such an extent that the Authority will have sufficient funds available from such revenues and rentals to pay the estimated annual cost to the Authority of the operation and maintenance of the Project and to pay the debt service on the Bonds of the Authority to be issued to repay not only the borrowings heretofore made, totalling \$32,000,000, but also an additional borrowing not to exceed Three Million Dollars (\$3,000,000) to complete the payment of the entire estimated cost of construction of the Project and other costs and expenses of the Authority, such additional borrowing of \$3,000,000 to be either a short-term borrowing for a period ending not later than January 15, 1973 or to be part of the issue of Bonds of the Authority which then would be in an amount not in excess of Thirty-five Million Dollars (\$35,000,000), to repay the existing bank loans of \$32,000,000 and to pay other costs and expenses of the Authority in an amount not to exceed \$3,000,000.

NOW, THEREFORE, the parties hereto, intending to be legally bound hereby, covenant and agree as follows:

FIRST: The Authority is hereby authorized to borrow, at such time or times as may be determined by the Authority, additional funds in an aggregate amount not to exceed Three Million Dollars (\$3,000,000), for a term not to exceed two years from January 15, 1971, and at such interest rate or rates as the Authority and the lender or lenders may agree upon, which rate or rates shall be subject to the approval of City Council by Resolution.

SECOND. The Authority is hereby authorized to apply to the Banks for an extension of the date for repayment of the sums totalling Thirty-Two Million Dollars (\$32,000,000) heretofore borrowed by the Authority pursuant to the Loan Agreement, such extension to be for a period not to exceed two years from January 15, 1971, at such interest rate as may be agreed to by the Authority and the Banks, which rate shall be subject to the approval of City Council by Resolution.

THIRD. The Authority is hereby authorized to issue Bonds in an amount not to exceed Thirty-Five Million Dollars (\$35,000,000) to provide for the repayment of the borrowing not to exceed Three Million Dollars (\$3,000,000) provided for in Paragraph FIRST hereof and for the repayment of the sums totalling Thirty-Two Million Dollars (\$32,000,000) heretofore borrowed by the Authority pursuant to the Loan Agreement, or, in the event the Authority does not borrow funds pursuant to Paragraph FIRST hereof, to provide for the repayment of the borrowings of Thirty-Two Million Dollars (\$32,000,000) heretofore made pursuant to the Loan Agreement and for the payment of other costs and expenses of the Project not to exceed in the aggregate Three Million Dollars (\$3,000,000).

FOURTH. This Amendment dated as of December 1, 1969 to the Agreement, as amended as of April 1, 1968, has been authorized on the part of the Authority by resolution of the Board of Directors duly adopted at a meeting held -----, 1969.

FIFTH. This Amendment dated as of December 1, 1969 to the Agreement, as amended as of April 1, 1968 has been authorized on the part of the City of Pittsburgh by Ordinance No. _____, approved on December _____, 1969, recorded in Ordinance Book Volume _____, page _____, and published, all in accordance with law.

SIXTH. All of the terms and conditions of the Agreement, as amended as of April 1, 1968, between the Authority and the City shall continue in full force and effect except as specifically changed or added to by this Amendment.

WITNESS the due execution hereof as of the day, month and year first above written but actually on the date of the latest acknowledgement at the end hereof.

izing the execution of an agreement assuming responsibility to bear any loss arising as a result of Early Land Acquisition and related activities and conveying all the City's right, title and interest in and to certain real property to Urban Redevelopment Authority of Pittsburgh in connection with an Urban Renewal Project identified as Manchester Urban Renewal Project (Redevelopment Area No. 27—Manchester), situated in the 21st Ward of the City of Pittsburgh.

WHEREAS, the Urban Redevelopment Authority of Pittsburgh (herein called the "Local Public Agency") proposes to enter into an Early Land Acquisition Loan Contract (herein called the "Contract") for financial assistance under Title I of the Housing Act of 1949, as amended (herein called "Title I") with the United States of America (herein called the "Government"), acting by and through the Secretary of Housing and Urban Development (herein called the "Secretary"), pursuant to which Federal funds would be provided for early land acquisition and related activities in connection with an urban renewal project (herein called the Project) identified as "Manchester Urban Renewal Project" (Redevelopment Area No. 27—Manchester), situated in an urban renewal area bounded on the north by the Pittsburgh, Fort Wayne and Chicago Railroad; on the east by Allegheny Avenue; on the south by Western Avenue; and on the west by Chateau Street, (herein called the "Urban Renewal Area"), in the 21st Ward of the City of Pittsburgh, Commonwealth of Pennsylvania (herein called the "Locality"); and

WHEREAS, under such Contract the Government would provide financial assistance for early land acquisition and related activities, and the applicable provisions of Title I provide that "no loan for such purpose shall be made unless . . . the governing body of the locality . . . shall have approved by resolution or ordinance the acquisition of real property in the urban renewal area"; and

WHEREAS, Title I also provides that "the Secretary may . . . permit any structure so acquired to be demolished and removed, and may include in any

(early land acquisition loan) the cost of such demolition and removal, together with administrative, relocation and other related costs and payments, if approval of the local governing body extends to such demolition and removal"; and

WHEREAS, the Local Public Agency has prepared and submitted proposals for the relocation of families that may be displaced as a result of carrying out early land acquisition activities in the Urban Renewal Area; and

WHEREAS, there have also been presented to this Council information and data respecting the proposals for relocation which have been prepared by the Local Public Agency as a result of studies, surveys, and inspections in the Urban Renewal Area; and

WHEREAS, the Council of the City of Pittsburgh has general knowledge of the conditions prevailing in the Urban Renewal Area and of the availability of proper housing in the Locality for the relocation of families that may be displaced from the Project Area as a result of early land acquisition and related activities and, in the light of such knowledge of local housing conditions, has carefully considered and reviewed such proposals for relocation; and

WHEREAS, Title I further prohibits any loans from being made for the purpose of early land acquisition unless

"either (A) the Secretary shall have determined that such loan is reasonably secured by a first mortgage or other prior lien upon such real property or is otherwise reasonably secured, or (B) the governing body of the locality shall have assumed the responsibility to bear any loss that may arise as a result of such acquisition in the event that the property so acquired is not used for urban renewal purposes, because the urban renewal plan for the project is not approved, or is amended to omit any of the acquired property, or is abandoned for any reason . . .".

AN ORDINANCE — To provide for the general revenue by imposing a tax of 20 per centum upon the transactions involved in parking motor vehicles at parking places, other than residential parking places, as measured by the gross receipts received therefrom by the operators thereof; requiring a license and the payment of the tax as a condition to the conducting of such transactions; providing for the levy and collection of such tax; prescribing requirements for returns and records; conferring powers and duties upon the Treasurer; and imposing penalties.

WHEREAS, Non residential parking places for motor vehicles, by reason of the frequency rate of their use, the changing intensity of their use at various hours of the day, their location, their relationship to traffic congestion and other characteristics, present problems requiring municipal services and affect the public interest, differently from parking places accessory to the use and occupancy of residences; and

WHEREAS, a tax for general revenue purposes upon the transactions involved in parking or storing motor vehicles at non residential parking places would therefore be appropriated; and

WHEREAS, it is necessary in the public interest to increase the parking tax rate for the year 1970; Now, Therefore,

No persons shall conduct

such transactions without complying with all the provisions of this ordinance and paying the tax hereby imposed.

directed and required to give to the Treasurer, or any agent designated by him, the means, facilities and opportunity for such examinations and investigations, as are hereby authorized.

Section 6. Returns and Payments: Each Operator, upon forms prescribed by the Treasurer shall file, on or before April 30, July 31, October 31, of the current tax year, and January 31, of the following year, returns showing gross receipts received with respect to each parking place during the respective three-month period ending on the last day of any month preceding the month in which the return due date occurs. At the time of filing the return, the operator shall pay to the Treasurer all tax due for the period to which the return applies.

Any operator who for the preceding quarterly period has failed to pay over the proper amount of tax to the Treasurer may be required by the Treasury to file subsequent returns and pay the tax monthly. In such cases, payments of the tax shall be made to the Treasurer on or before the last day of the month succeeding the month for which the tax was due.

The City Treasurer is hereby authorized to accept payment under protest of the amount of parking tax claimed by the City in any case where the taxpayer disputes the validity or amount of the City's claim for tax. If it is thereafter judicially determined by a court of competent jurisdiction that the City has been overpaid, the amount of the overpayment shall be refunded to the taxpayer.

Any operator who ceases to conduct the operation of a parking place shall notify the Treasurer and pay all taxes due in thirty (30) days.

Section 7. Treasurer's Powers and Duties. The Treasurer, on behalf of the City, shall receive and collect the taxes, interest, fines and penalties imposed by this ordinance, and shall maintain records showing the amounts received and the dates such amounts were received. The Treasurer shall adopt and enforce regulations relating to any matter pertaining to the administration of this Ordinance, including, but not limited to,

requirements for evidence and records and forms for applications, licenses and returns.

Section 8. Collection: The Treasurer shall collect, by suit or otherwise, all taxes, interest, costs, fines and penalties due under this Ordinance and unpaid. If for any reason, any tax is not paid when due, interest at the rate of six per cent (6%) per year on the amount of unpaid tax and an additional penalty of one-half of one per cent ($\frac{1}{2}$ of 1%) of the amount of unpaid tax for each month or fraction of month during which tax remains unpaid shall be added and collected. Whenever suit is brought for the recovery of unpaid tax the operator shall, in addition, be liable for the costs of collection as well as for interest and penalties.

Section 9. Violations: Any person who violates any provision of this Ordinance or any regulation adopted pursuant to it shall, upon conviction thereof before any alderman or magistrate, be liable for a fine of not more than three hundred dollars (\$300.00) or, in default of payment of such fine, shall be imprisoned in the Allegheny County Jail or Allegheny County Workhouse for a period not exceeding thirty (30) days.

Section 10. Severability. If a final decision of a court of competent jurisdiction holds any provision of this Ordinance, or the application of any provision to any circumstances, to be illegal or unconstitutional, the other provisions of this Ordinance, or the application of such provision to other circumstances, shall remain in force and effect. The intention of Council is that the provisions of this Ordinance shall be severable and that this Ordinance would have been adopted if any such illegal or unconstitutional provisions had not been included.

Section 11. Ordinance No. 674, approved December 28, 1968, entitled "An Ordinance to provide for the general revenue by imposing a tax of 15 per centum upon the transactions involved in parking motor vehicles at commercial parking places, as measured by the gross receipts received therefrom by the operators thereof; requiring a license and the payment of the tax as a condi-

tion to the conducting of such transactions; providing for the levy and collection of such tax; prescribing requirements for returns and records, conferring powers and duties upon the Treasurer; and imposing penalties" shall remain in effect until the effective date of this Ordinance.

Section 12. Effective Date. This Ordinance shall become effective February 1, 1970, and shall remain in effect thereafter from year to year on a calendar Year basis.

Memorializing the President of the United States to reconsider the Anti-ballistics Missile Plan.

Whereas, the President has cut \$2,900,000,000 allocated for the health and welfare of the American people from the forthcoming budget; and

Whereas, the City of Pittsburgh is in dire need of federal funds to cope with the urban blight, lack of jobs, housing, education, health, air pollution, and the problems of poverty and the aged; and

Whereas, the proposed federal cut will further reduce the funds allocated to Pittsburgh when in fact Pittsburgh and other cities require massive additional federal money to meet their needs; and

Whereas, the highly controversial Anti-ballistics Missile plan of the Nixon administration would seriously hinder the large-scale commitment needed for our domestic urban problems; and

Whereas, many prominent public officials, such as former Supreme Court Justice Arthur Goldberg; former Vice President Hubert Humphrey, Senators Michael J. Mansfield, Fred Harris, Edward M. Kennedy, George S. McGovern, Richard H. Schweiker, Sherman Cooper, Clifford P. Case, J. William Fullbright, as well as Congressman William J. Green, and Mayors Jerome P. Cavanaugh, John V. Lindsay, Richard Hatcher, Joseph L. Alioto and Carl Stokes, have spoken out against the Anti-ballistics Missile plan; Therefore,

Resolved, by the Council of the City of Pittsburgh, That we hereby memorialize President Richard M. Nixon to reconsider his proposed Anti-ballistics Missile Plan and the contemplated reductions in the health and welfare portions of the forthcoming budget; and

Resolved, By The Council of the City of Pittsburgh, That a certified copy of this resolution be forwarded to the President of the United States, the Vice President, the President pro Tempore of the Senate, the Speaker of the House of Representatives, and the Senators and Congressmen representing Pennsylvania in the Congress of the United States.

No. 237

Whereas, American armed forces have been engaged for over four years in combat in Vietnam, and have distinguished themselves for their valor despite vague and sometimes conflicting expressions of national purpose and objectives in that war; and

Whereas, Combat deaths for American forces now exceed the death toll in the Korean War, and the nation continues to spend \$100,000,000 per day to finance the war; and

Whereas, The direct American involvement in the war in Vietnam—never intended in our original intervention—has reached the point where it brings an intolerable financial and personal burden to all Americans; and

Whereas, The pressing needs of our nation's cities are being slighted, Congressional appropriations are being cut and urban programs are being curtailed in the face of increasing need for substantial government action; and

Whereas, It is apparent that the national government has not yet formulated a definite plan to end direct American involvement in the Vietnam war;

Now, Therefore, Be It Resolved, That the Pittsburgh City Council hereby memorializes the administration of President Richard M. Nixon to declare and carry out a definite program to terminate direct American involvement in the war in Vietnam and to put into effect the systematic withdrawal of major forces in America, to be completed before the end of 1970; and

Be It Further Resolved, That the Pittsburgh City Council does hereby memorialize the Congress of the United States to provide through its legislative and budgetary powers that the administration of President Nixon quickly begin to extricate the United States from its crushing, disastrous involvement in Vietnam and to devote national resources to programs which meet the needs of cities in housing, education and public transportation.

A Resolution to implement the "Topics" Program

Whereas, The City of Pittsburgh has been invited to participate in a new federally-assisted Traffic Operations Program to improve capacity and safety of our major streets;

Whereas, This program, known as "Topics" will be administered on a

matching funds basis through the Pennsylvania Department of Highways;

Whereas, The improvements must solve area-wide problems and must be based on engineering studies, and be compatible with long-range transportation plans;

Whereas, The plan must be approved by the City, Southwestern Pennsylvania Regional Planning Commission, the Highways Department and the Federal Bureau of local roads;

Whereas, In order to assist communities in developing "Topics" plans, funding for the studies to determine the needs and establish a program of action will be on the basis of 50% federal, 25% state and 25% city;

Whereas, Because of the complexity and general scope of the work to be undertaken, it is proposed that the Southwestern Pennsylvania Regional Planning Commission be designated to coordinate and administer the Pittsburgh "Topics" studies;

Whereas, Because the Southwestern Pennsylvania Regional Planning Commission is already administratively organized and financed to direct the long-range transportation plans for the region, and since Pittsburgh's arterial system is an integral part of the immediate, as well as long-range transportation system for the region, it appears logical that the administration for the "Topics" program studies be centered in this organization;

Whereas, Since assistance will be provided by the City in the conduct of these studies, the accumulated man hours and other technical efforts will be a non-cash contribution by the City to the study;

Whereas, It is anticipated that the City's cash contribution, under this financial arrangement, should not exceed \$15,000;

Whereas, The first phase of the study is expected to be completed within two months in order to apply for implementation funds for the 1970 construction season;

Whereas, The completed study, neces-

sary to produce a continuing five or six year program for traffic operations improvements, should be completed within eighteen months;

Whereas, The funding for the implementation of actual field improvements, based on the study recommendations, will be shared equally by the Federal Government and City on a 50-50 basis;

Whereas, This program will enable the City to almost double the number of intersection and other traffic related improvements at no significant increase in capital outlay;

Whereas, While the "Topics" program studies will be administered by Southwestern Pennsylvania Regional Planning Commission, under strong, direct guidance by the City, the necessary contracts for construction will be handled by the City alone, and not involve that agency;

Whereas, Initiation of this program in Pittsburgh requires that a resolution be passed by City Council to indicate a willingness to participate in the financing, a pledge to maintain the physical improvements that will result and an agreement to regulate and enforce traffic controls critical to the system.

Resolved, That subject to Councilmanic approval of the specific implementation of the "Topics" Program, the City intends to take the following action:

1. To assist in financing the program outlined above.

2. To have the Southwestern Regional Planning Commission be designated to act as coordinating, administrative agent for the gathering and tabulation of data, and the preparation of a final report documenting the traffic network, improvement areas, recommended solutions and all other study requirements of the program.

3. To participate financially in the conduct of these studies through the Southwestern Pennsylvania Regional Planning Commission, both in the form of a non-cash contribution, and by direct cash contribution, as necessary, to satisfy the 25% Local share requirement.

4. Enter into the necessary contracts with the Federal Government through the State, on a matching fund basis (50/50) for the implementation of actual field improvements resulting from the "Topics" studies.

5. To provide the money required to maintain these improvements, and to provide the necessary traffic and parking regulation enforcement needed to insure the success of the traffic operation improvements recommended by the study.

Whereas, as from certain investigations by the United States Department of Justice it appears that various automobile manufacturers and oil companies have failed to utilize adequate air pollution control devices; and

Whereas, suit brought by the United States of America under the antitrust acts was settled by consent and decree; and

Whereas, the Pennsylvania cities of Erie and Lancaster and other cities in the United States have filed an independent civil action against the automobile manufacturers and oil companies on behalf of the citizens and taxpayers of those communities; and

Whereas, studies by the Department of Health, Education and Welfare have estimated that air pollution from automotive vehicles accounts for approximately 60% of the total air pollution and causes damage to the citizens and property of the communities; and

Whereas, investigation by the Department of Justice indicates that automobile manufacturers failed to utilize anti-pollution control equipment and delayed installation of such equipment; now therefore be it

Resolved; That the Law Department of the City of Pittsburgh is hereby authorized to join with other cities of the Commonwealth and the United States in filing a civil action under the anti-trust laws of the United States against named automobile manufacturers and oil companies to recover damages resulting from air pollution created by the failure of the companies to install adequate anti-air pollution devices and that such suit shall be brought by the City of Pitts-

burgh on behalf of itself and the citizens and taxpayers of the City of Pittsburgh.
